

TOPANGO FIRES SMOLDER BUT DANGER HAS PASSED.

Conflagration Which Has Raged for the Past Week Seems Now to Be Safely in Hand—Veering of Wind Enables Force, Which Had Been Augmented by Aid of County, to Control Flames.

SANTA MONICA, Nov. 27.—Although a dense volume of smoke was rolling out of Santa Ynez Canyon this afternoon, the only blaze visible tonight is that which is leaping from the top of Topango. And although this is of considerable size, no anxiety is shown to the safety of any interests in the canyon.

The wind is blowing quite a gale, veering down the canyon from the north, and sending the flames back over the walls which were completely covered yesterday. There is no smoke, with the wind from the north, as it is fanned back and the flames are kept in check. The fire is a good opportunity for a wide path which will eventually block the advance of the conflagration up the canyon. Tonight the fire in Topango may be said to have been confined to the lower half of the canyon. The encroachment of the last night was feared was circumscribed by the action of the Topango rangers, assisted by the rangers of the County Supervisors at Santa Monica this morning.

These recruits came by automobile, passing via the San Fernando and Palmdale way. Fire in the lower half of the canyon prevented entrance to the ocean side. The fighters of the advancing flames near the canyon street, and aided by the wind, were enabled to stop its progress at the point. Safety for all Topango interests is felt tonight, unless the flames should smolder Santa Ynez, crossing the ridge and up through Garrajes and attack the ranch from the east.

The guardians, however, are prepared to meet the first flicker of flame. The brush here is not thick, and the fire is familiar with the canyon. The fire is being kept under control. The fire is being kept under control. The fire is being kept under control.

of the fire, for the reason that the section of mountains which has been burned over is not a part of the shed. The water, which is conserved in that territory, could not by any possible line of reasoning affect the water supply.

The supply for Santa Monica would most assuredly have suffered had the fire extended into Sullivan, Mandeville, and Sepulveda, but these canyons were many miles from the fire. Mr. Procter said the companies represented by him would keep men at work to prevent any spread of the fire, and that the vigilance would not cease until all danger was over. He apprehends no more trouble, believing that the blind pocket of Santa Ynez, which is burning out tonight, will not be able to fight its way across the ridge into Topango.

IN SHEEP'S CLOTHING?

Manquerades as Priest and Steals from Those Who Befriend Him, Is the Charge.

Alphonse Espinosa, Beringhouse, who impersonated a priest for about a month while living in Los Nietos, told a remarkable tale when arraigned before Justice Forbes yesterday morning on a complaint sworn to by Mrs. Carolotta Pais, charging him with grand larceny for the alleged theft of her horse and buggy which she was buying on the installment plan. At the conclusion of his recital the justice held the man to answer to the Superior Court under \$1000 bail.

Beringhouse, who posed as Father Espinosa, said that when he went to live at the Pais home he was told he could have anything around the place that he wanted. The offer was made, as he said, because he had told Mrs. Pais he was going to start a home in Los Nietos for poor children. Beringhouse took the horse and buggy and some personal effects one day while Mrs. Pais was absent.

Beringhouse explained that in crossing the San Gabriel River the horse kicked the buggy to pieces. That evening he swore he bought an automobile for \$50, giving the horse as security. The machine was to be used in connection with his orphanage. He made an explanation of the circumstances that the State is prepared to show he traded the Pais horse for the animal he was riding when arrested, and that both the Pais horse and the

buggy have been recovered. Mrs. Pais also recovered the image of the Virgin Mary, the property of her little girl before the latter died. It was the mother's efforts to recover this treasure that led to Beringhouse's arrest. It is said that while posing as a priest that Beringhouse married several couples.

The authorities are investigating his assertion that he organized a Salvation Army barracks in the City of Mexico before coming to Los Angeles.

DETECTIVES DIDN'T DETECT.

Investigation of Five Hawkshaws at the Westminster Develops Startling Fact That Nothing Happened.

Five detectives rushed wildly into the lobby of the Westminster at the dinner hour last evening and sought the clerk.

"Where are the burglars?" asked one.

"Yes, show us the robbers!" cried another.

"What's that?" inquired a "bell hop" who used to roam about Forty-second and Broadway and cannot forget the fact.

The detectives showed as much surprise as their training and faces would permit.

"Didn't someone here call for the police?" chorused each one of the five.

"I should say not," said a clerk.

By this time a crowd had collected in front of the hotel. The patrol wagon which had brought the detectives to the scene of the supposed crime was surrounded by a curious throng and citizens were asking one another what was the matter.

The crowd dispersed when the detectives stalked out of the hotel, sulking and disgruntled. They believe that someone played a joke on them. Maybe someone did.

Getting Together.

DOMINGUEZ INDUSTRIAL CENTER LOOKS LIKELY.

THE LONG-CHERISHED plan of J. S. Torrance, vice-president of James H. Adams & Co., and associates in large business ventures, to erect an industrial city built on a 2500-acre tract of the famous Dominguez ranch, north of Wilmington, is about to be realized. The one stumbling block to the consummation of the deal has been the attitude of the Southern Pacific Company, and the necessity of securing the co-operation of the railroad. This, it is understood, has at last been arranged.

It has never been understood that the officials of the Southern Pacific were opposed to the industrial-city plan, but the red tape necessary to lose the negotiations has caused the matter to drag for the past six months. In the first place it was desirable before anything was done toward establishing great industrial plants on the tract to have an agreement that would make of a new town a terminal freight point. This matter was settled satisfactorily some weeks ago, and the next step was to make a deal with the railroad for the way of proper transportation and switching facilities.

From the first it has been planned for the Union Tool Company and the California Industrial Company, with both of which Torrance is connected, to move their plants to the new town. Negotiations have also been carried on with the Baker Iron Works and the Liverly Iron Works, and the Los Angeles China Manufacturing Company. Some of these, if not all, will be a part of the industrial city.

J. S. Torrance said yesterday that he had given the railroad company an ultimatum, and that the matter would be settled within a few days. From other sources it was learned that the company will co-operate in plan. Every effort will be made by the promoters to make a model town of the industrial center. All deeds will provide against the sale of liquor.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrup. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

Thanksgiving Sale

Ostrich Plumes and Paradise Aigrettes

Marvel—Tuesday and Wednesday

For the two days preceding Thanksgiving, the Marvel is going to give Thanksgiving gift buyers a very exceptional opportunity to buy ostrich feathers and Paradise aigrettes.

We are going to offer you values such as you have never before gotten in Los Angeles. Our stocks are too heavy and we offer these two-day price inducements to cut them down. Whether you want ostrich or Paradise for gift giving or for your own use, you certainly cannot afford to let this sale go by unheeded.

NEW SERVICE IS ARRANGING

Novel Equipment For on Through Train

Santa Fe in Competition Northern Traffic.

Change in Routing Through the City Streets.

The equipment is being for the new through passenger service between Los Angeles and San Francisco to start Friday. The new steel construction will be the last word to be said in the matter of up-to-date trains.

There is included in the equipment a car that is one-half passenger and one-half baggage. It is a novelty, in being being equipped with a buffet car, and the other half baggage car. There is a Harvey dining-car, the most modern type of sleeping car, and an observation sleeping car which will be in service between Los Angeles and San Francisco. The above represent the equipment of one train.

The service by which the Santa Fe will enter into competition with the passenger traffic between Los Angeles and San Francisco provides for a train from both cities at 9:15 p.m., arriving at Los Angeles at 11:45 the morning. Close connection will be made by the departing and arriving trains with San Diego, the observation car running to and from the city.

Under this service, the Santa Fe will provide for a standard sleeping car, which will leave Los Angeles at 11:45 p.m., arriving in Bakersfield at 7:35 p.m. and arriving in San Francisco at 11:10 a.m. These trains will make connection with the train from San Francisco to Los Angeles at various points in the city.

Coincident with the starting of the service to San Francisco, the Santa Fe will take over the operation of the Sunset Railroad, which is now owned jointly by the Santa Fe and the Santa Fe each operating alternating in the operation of the service. The Santa Fe had no through service between Los Angeles and San Francisco, passengers transferring at Los Angeles.

Change in Routing.

The Los Angeles Railway Corporation made some changes in its routes to relieve the congestion of cars in the city. It has asked for a right of way to run a car line from Pasadena to Los Angeles, where the line will be joined with the Los Angeles Railway line. The line will run through the city, and will be a through route to the city.

At the same time the Griffith avenue line will be changed. The Griffith avenue line will run from Griffith avenue to the city, and will be a through route to the city.

The S. S. Sonoma and S. S. V. of the Oceanic Steamship Company have been added to the Union Line in San Francisco. The S. S. Sonoma, local agent, announced that the company will spend \$700,000 in improvements. They will be added to oil-burners, fitted with new hulls, and be given all of the appliances of ocean liners. The ships were built at Cranston at Philadelphia about 1880, and ago as they come from the Iron Works they will be put in the service of the Pacific coast without stopping at New York.

Big Crop Is Moving.

According to reports received by Platt, general superintendent of the Southern district of the Southern Pacific there is a record-making movement of oranges from the Porterville district. The maximum number of cars taken out in one day has been 115, but there is a demand of about 150, which will make the total for the season in the district of 2600 cars. The movement is to continue until Christmas, when the crop from the Whittier district and other districts further north will start.

Has a New Job.

John Puller has been appointed as mechanic of the San Joaquin Railway lines of the Santa Fe Railroad. His headquarters at Fresno. This new position created to take effect later. Mr. Puller's jurisdiction extends from Bakersfield to San Joaquin, including Richmond, Stockton, Riverbank, Fresno, Coalinga, Bakersfield and the Sunset line. Mr. Puller has been in the service of the Santa Fe for twenty years.

Tourists are Coming.

The Salt Lake Railroad brought large parties from the East yesterday. One contingent of twenty came from Omaha and will visit the Barbours, Francisco, and the land at the Patterson ranch. Tracy and Fresno, and start on their trip on the Salt Lake Railroad. They will stay in Los Angeles for a few days, and then go on to the coast from Columbus, O., and practically the same route.

Turning of the Tide.

The enthusiastic Alexander meeting held in Precinct 221, in a hall 1530 East Fortieth street, last night, and L. W. Klinker, the primary speaker, was cheered to the echo in the primary election. There were several speakers present at the meeting in the precinct. There were also several speakers present at the meeting in the precinct. There were also several speakers present at the meeting in the precinct.

A dark, textured vertical strip, possibly a book binding or a piece of aged paper, showing signs of wear and discoloration. The texture is grainy and uneven, with some lighter patches and darker areas. The strip is set against a solid black background.

Cities and Towns of Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

COURT DENIES A REHEARING.

State's Supreme Body Sustains City's Contention.

Telephone Company Compelled to Cease Work.

Board of Education Awards a Big Contract.

Office of The Times, 51 E. Fair Oaks Avenue.

PASADENA, Nov. 28.—Following a denial by the California Supreme Court of the application of the Pacific Telephone and Telegraph Company for a rehearing of its case against the city of Pasadena, City Attorney Carr yesterday ordered the company to cease all operations, so far as the putting of wires underground is concerned.

At 5:30 o'clock yesterday afternoon Carr notified Local Manager Eric Kohler of the telephone company that no more work would be allowed after 4 o'clock. At this hour Chief of Police Wood, with members of the police department in readiness if they should be needed, proceeded in an automobile to the places on North and South Fair Oaks Avenue, where excavation was in progress and ordered the foremen immediately to cease work.

The order was obeyed without discussion and no alterations of any kind ensued.

Carr announced last night that no drastic action is contemplated on the part of the city. He said that the telephone company will be given ample time to consider the matter and come to the City Council and procure a franchise before any further step is taken.

The city authorities estimate that since the decision of the Superior Court was handed down, fully a mile of paved streets of the city has been torn up by the company in an attempt to get its wires underground as quickly as possible, while other streets have been marked for like treatment.

The City Attorney considers that the injunction granted the telephone company by Judge Bordwell expired with the last action of the Superior Court and that there now remains nothing for the company to do but supply for a franchise. City Attorney Carr said last night:

"Ordinance No. 341, the validity of which was attacked by the telephone company, has now been sustained by the Supreme Court of the State and is now unlawful for the company to maintain local lines without a franchise. It is also unlawful for it

to use the streets of the city for interstate business without the payment of a tax of \$1.50 a year for each pole. I have ordered the lines summarily to be removed as a nuisance.

"The intention of the city is not toward any drastic action, and the telephone company will be given ample time to shape whatever course it intends to pursue. So far as I can see, the only thing for it to do is to come to the City Council and apply for a franchise."

Carr returned to the city only last Sunday from San Francisco, where he went to present the city's side of the question to the Supreme Court.

AWARD SCHOOL CONTRACT.

The Board of Education met last

yesterday afternoon and awarded contracts for the new Polytechnic High School.

The general contract went to W. C. Crowell of Pasadena, whose bid was \$205,500. This includes the main

work on the administration, science, domestic science, mechanical and physical culture buildings.

The firm of Munger & Munger of this city got the contract for the plumbing. Its figures were \$27,443.

The contract includes all of the heating and ventilating work. The Newberry-Beaman Company of Los Angeles yesterday morning, were called to run to No. 313 Madeline drive. Here the burning of a pile of rubbish had resulted in a tree being set on fire.

The Komical Knights of the Kari-vau met last night to make plans for their share of the entertainment on New Year's Day, when the Tournament of Roses will be held. They are now securing novel features which will provide plenty of laughs and help to make the occasion the most enjoyable Pasadena will ever have celebrated.

The public automobiles are largely the cause of a congestion on Colorado street, was the stand taken by the city commissioners at yesterday's session. The subject came up over an application of Frank E. Musick for permission for a stand. No action was taken.

David F. Plumber, manager of the Hotel Green, arrived from the east yesterday. He says that indications there are that Pasadena will have one of the best tourist seasons it has ever enjoyed this winter.

Dr. George Wharton James, of No. 1676 North Raymond Avenue, left the city yesterday for the northern part of the State to spend the winter.

Dr. E. L. Conner, president of the Humana Society, has gone to Oklahoma City to visit his son and daughter there.

BURGLAR WAGES CAMPAIGN.

Enters a Half-Dozen Arms Homes and Secures Watches and Makes His Escape.

AZUSA, Nov. 27.—Yesterday morning Conwell Smith, who lives on Solano Avenue, left home at 5 o'clock, calling out to his father-in-law next door as he did so. A little later Mrs. Smith heard the back door opened. Thinking it was either her father or mother, she called, but received no answer. When she called a second time, a masked man opened the door of her bedroom, pointed a gun at her head, and told her if she made any outcry he would shoot her. She, however, sprang to the window and screamed, and the man disappeared. Apparently he did not go far, for last night a number of houses were entered. That of Rev. Charles F. Richardson on San Gabriel Avenue was entered, while the family was at church, but so far as has been ascertained nothing was taken. From there the thief went to the home of Pedro Gonzalez on Arroyo Avenue. Gonzalez got a gun and shot at the man. He did not, however, shoot to kill, for he feared that in the moonlight he might hit someone other than the man at whom he aimed. Gonzalez found everything in his house turned upside down, and two watches and \$20 in money missing.

The man wears rubber-soled shoes and his footprints in his yard but missed nothing from his premises.

At the home of H. F. Perkins \$70 in money was secured. The home of Prof. G. F. Sawyer was entered and it is reported that a number of things were stolen, but circumstances prevented the confirming of the report this morning.

ELECTRIC CAR CUTS CAPERS.

Near Panic on South Pasadena Line When the Control Lever Refused to Work Properly.

SOUTH PASADENA, Nov. 27.—Early yesterday afternoon a car became unmanageable as it neared the Lincoln Park station on Pasadena Avenue. The control lever refused to work, as did also the brakes. The car accelerated in speed and, at the short curves at the Cawston Overlook Farm, and as it reached the viaduct over the Arroyo it was going at a dangerous rate of speed.

The motorman finally motioned to the conductor to apply the brake at the rear of the car, but as this was out of order, the trolley from the wire. The passengers who filled the car became panic-stricken, and it was with difficulty that some were prevented from jumping from the car, when in motion.

NEWS BRIEFS.

There is a movement on foot to form a student league of the South Pasadena High School, which will have as its purpose "Clean speech, clean athletics and clean play."

To use the words of Roy Petty, of the Los Angeles Y.M.C.A., who spoke on the subject at assembly period recently held here.

C. R. Childs has sold the Princess Theater, located on Mission Street, between Fremont and Fairview Avenues, to Miss Nellie M. Place, of Los Angeles. It was opened Saturday evening under the new management, and will be conducted as a moving-picture theater.

Much interest is being taken here in the work of the parent-teachers' associations, and they are bringing about many benefits as the result. These organizations are doing what they can to assist the teachers and parents in paying the way for the proper development of the child, both as to his mental and physical training. A paper was read at a recent meeting of the Lincoln Park Association "On Physical Defects of Children and their Effect on School Work," by Mrs. D. L. Baker.

CLAREMONT BANK.

WASHINGTON (D. C.) Nov. 27.—[Exclusive Dispatch.] The Comptroller of the Currency has received application for authority to organize the Claremont National Bank with a capital of \$25,000. W. S. Palmer, Claremont correspondent; J. W. Cooper, W. Towns, L. O. Smith, M. F. Palmer and J. T. Brooks, proposed directors.

SOMEBODY LIGHTING THEM?

There is a well-grounded belief in Los Angeles among some of the officers that the mountain fires have been intentionally lighted and spread and kept burning by some person or persons, whose object is not known. Deputy Constable Jack Adams left last night by automobile with two

other deputies for the Calabasas region, where the last blaze was reported, and started before starting that he has a clew which may lead to arrests before daylight. He expects to return today, and may bring a prisoner.

BURGLAR ROBBS A HOTEL SAFE.

Long Beach Hostelry Loses Money and Jewels.

School Board Rescinds Its Ruling on Holiday.

Fog Makes Trouble for San Bernardino Birdman.

LONG BEACH, Nov. 27.—When W. V. Bartow, proprietor of Del Mar Hotel, entered his office this morning he found the safe door standing open and an examination showed that it had been looted of \$200 in money and jewelry valued at \$400, left by guests for safe keeping. In an inner drawer envelopes containing \$400 belonging to guests had been overlooked.

Unhappily, the safe was left unlocked last night and, owing to the location of the office entrance, was easily effected by a side door without attracting the attention of any of the hotel employees or inmates.

Among the articles of jewelry taken were five diamond rings and an emerald rosy necklace belonging to Mesdames Rose Shelton, R. L. Blaby and Miss Emma LeSueur. The police have no clew, but entertain a suspicion that it was an inside job, by someone familiar with conditions.

RESCINDS ORDER.

The Board of Education at a special meeting this morning rescinded its order shortening the Thanksgiving holiday and therefore school will adjourn Wednesday afternoon until the following Monday.

The student body filed a strong protest against the single holiday and this, coupled with the fact that the school year book destroyed the two days and teachers had made their holiday plans accordingly, led to the rescinding of the ruling, with the understanding, however, that it applies to this year only.

Fog having made the covering of his biplane baggy, Frank Stites, the San Bernardino birdman, who has been here several days trying a new engine, today began the work of recovering the entire plane, which will postpone any further flights for several days. He made a short flight on the beach this morning and in landing broke one of the sticks of the framework.

NEWS BRIEFS.

Canute Cardenas, a Mexican section hand on the Salt Lake Railroad, this morning lost his balance and, falling from the front end of a handcar near the Seaside Park gas plant, was run over by the car. He has a bad scalp wound, bruises on his face and shoulder and his arm is apparently broken.

City Clerk Boynton authorized the statement today that because of the new names on the Great Register and the proximity of the election tomorrow, new voter bonds and the municipal election a week hence, that he was unable to discriminate between legal voters now and a week hence and therefore had mailed sample ballots to all registered voters, but only those registered prior to October 28 will be eligible to vote on the bond issue tomorrow.

Funeral services for the late Frank McCutchan, banker and business man, who died yesterday, will be held Wednesday morning. There will be a private service at the house at 3 o'clock, at which Rev. R. W. Cleveland will officiate, and another public service at 10 o'clock at the Cleveland chapel, officiated by Rev. O. L. Mason and conducted by the Knights Templar. Burial will be at Rosehill cemetery, Los Angeles, in the afternoon.

William Orr, charged with stealing a woman's bathing suit, was arrested today and after investigation was turned over to an officer of the Whittier Reform School, of which he had been an inmate.

FIREBUGS ARE AT WORK.

Hoodlums Attempt to Destroy the Salvation Army Barracks at Pomona—News in Brief.

POMONA, Nov. 28.—Late last night fire was discovered in the Salvation Army barracks at Third and Main streets by William Rule, who extinguished the blaze before any considerable damage was done. It is supposed that some hoodlums set fire to some paper which had been stuffed in a broken window pane. Fires have been numerous recently and the local officers are considerably concerned.

The name of the men now in custody, charged with the setting of the three fires on November 9, are given as Tony Abila and William Douglas. Their preliminary hearing will be held Wednesday.

NEWS BRIEFS.

Tomorrow will occur the school bond election. There are two separate issues to be submitted to the voters here: one is to provide \$100,000 for a grade school fund and the other \$100,000 for a high school fund. There will be two voting booths located at the corner of Third street and Garey Avenue.

The parish of St. Joseph's Catholic Church has arranged for a bazaar to be held at the Fraternal Aid Theater on December 7, 8, 9, at which fancy articles, Spanish drawn work, pictures and refreshments will be sold for the benefit of the church. Rev. Joseph Munan is now in San Francisco in the interest of the bazaar. Joseph Scott of Los Angeles will make the address on the opening night and Walter Goldsmith of Los Angeles will be on the program.

The Outlook Club of the Unitarian Church was addressed last evening by Prof. D. H. Colcord of Pomona College upon the subject "Universal International Peace."

Rev. Joseph Oliver of Ontario addressed the Brotherhood of the First Methodist Church here tonight at its regular monthly meeting.

A harvest home festival was held at the Episcopal Church last evening. Commemorative of Thanksgiving. Donations of fruit, vegetables and clothing were collected and will be distributed to the needy of the congregation.

"The Most Wonderful Stuff in the World"

What is Sulpho-Naphthol?

It was discovered years ago, and at once recognized by hospitals everywhere as a wonderfully effective and safe antiseptic in minor operations, wounds, etc.

AS A HEALER

Its reputation quickly spread, and it is now used in thousands of households as a first-aid healer and purifier for cuts, burns, bruises, sores, stings, inflammations, and all such minor accidents. It relieves pain instantly and heals as if by magic. Use only a few drops in water.

AS A DISINFECTANT

ONE TABLESPOONFUL to a GALLON of water makes a disinfectant FIVE TIMES as strong as pure carbolic acid, at a fraction of the cost, and absolutely harmless.

It destroys all germs, every unhealthy condition, destroys odors, makes drain pipes sweet and clean, purifies musty cellars. Deodorizes the sick-room and prevents spread of infection.

AS A CLEANER

ONE TABLESPOONFUL to a PAIL of water removes grease and stains and dust that soap will not budge. And it not only cleans but destroys germs at the same time, drives water-bugs and roaches away. Makes scrubbing half as hard. Doesn't injure but softens the hands.

Sulpho-Naphthol has a hundred other wonderful uses, described in our booklet to be had at any drug store.

Price per bottle, 10c, 25c, 50c, 75c, \$1.00

The Sulpho-Naphthol Company, Boston, Mass.

-I'm going to Move

up in the Union Oil Building—but before going, I've a men's suit proposition to put to the good dressers of Los Angeles that is unusual and worth while.

To immediately reduce my stock of high-class woollens—I'll make up any of my select \$45 patterns for \$34—my \$40 patterns for \$30—my \$35 patterns for \$26.

And I'll put my very best personal service in every one of these suits. My twenty-five years' reputation in Los Angeles is your assurance that the Gordon standard will be maintained right up to the top notch.

Suppose you drop in and take a look over the new patterns today.

Gordon

Draper and Tailor

325 South Spring Street

OIL COMPANIES SUFFER LOSS BY WHITTIER FIRE.

WHITTIER, Nov. 27.—Fire which started in the hills east of this city yesterday morning, which still rages in the rich oil district, has already done considerable damage to property and has practically destroyed all the sheep pasture in the immediate vicinity.

A few oil tanks and one derrick have been burned and unless it is quickly watched it is feared the fire will get into one of the canyons where families of the men employed at the wells are located. This would mean great loss to the several oil companies operating in this district, and destroy the homes of a hundred families.

The direct cause of the fire, which

broke out on the Berry tract, is not known. When first discovered the conflagration had a good start northeast of the Whittier Crude Oil Company's property and was being rapidly carried down on the wells by a strong wind. All the men who could be secured by the companies whose property was threatened were sent to fight the flames, and they have fought and guarded the fire from their homes ever since.

The greatest damage was done on the Home, Central, Canadian-Pacific and Colorado Oil companies' leases.

Tonight the fire is burning at the head of Turabull Canyon and in Sycamore, one of the prettiest canyons in the Puente range of hills.

Whittier.

BANK PAYS DEARLY FOR MEAL FOR HUNGRY MAN.

WHITTIER, Nov. 27.—Penniless without work and driven temporarily insane from lack of food, a man who gave his name as Wallace, hurled a stone as big as a fist through one of the large plate glass windows of the Whittier National bank about 7 o'clock this morning. An hour later was taken into custody by Constable R. B. Way and held in the City Jail.

Wallace said he was out of work, hungry and too proud to beg and committed the crime in order to get rested and sent to jail, where he could be fed.

Walking up to the bank, Wallace saw the stone directly at the "Burr" sign on the window and sauntered leisurely down the street as if nothing had happened. He was taken the County Jail on a misdemeanor charge, where he will be kept pending an examination.

The bank windows are not insured

and the total property loss will amount to approximately \$150.

TO PROVIDE BEDS.

The Brotherhood of St. Andrew of the St. Matthias Episcopal Church has established a mission in the downtown district for unfortunate men who have not sufficient means to provide themselves with a night's lodging, sufficient clothing and food.

The Brotherhood has leased two rooms in the St. John's building on East Philadelphia street and have equipped the place with beds, tables, and other necessary furniture, and kitchen utensils.

It is the idea of those at the head of the institution to provide night's lodging, breakfast and a job for all comers. A reading-room, supplied with a stove and plenty of good magazines has also been provided. Since the place was opened a few days ago it has been occupied every night, and the men provided with work.

Outlook Cheers.

ANTA MONICA AROUSED OVER MUNICIPAL FIGHT.

ANTA MONICA, Nov. 27.—Sentiment in favor of the election of Roscoe Dow is growing stronger there is little doubt that he will win his nearest opponent by a substantial plurality. The business men of the town seem to believe that the town is prospering, that it depends on a same administration at public affairs, and they also seem to think Dow has all of the qualities necessary in the Mayor of a growing municipality.

Among the prominent men of the city, who are supporters: actively the

facturer; E. S. Tomblin, broker; Fred

Japan, capitalist; C. E. Townner, promoter; Carl F. Schader, realty operator; C. D. Middlekauff, merchant;

Dr. John A. Balsey, banker; W. C. Smeltzer, manufacturer; William

Chapman, capitalist; John D. Lincoln, capitalist; George D. Snyder, contractor, and P. J. Dudley, banker.

A vigorous campaign has been waged by the various organizations and an unusually large vote will be polled next Tuesday. The advent of the feminine vote has disturbed the calculations of the forecasters. In a measure, but there are few who do not express the belief that Dow will win under the wire a safe winner.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES

COURT DENIES A REHEARING.

State's Supreme Body Sustains City's Contention.

Telephone Company Compelled to Cease Work.

Board of Education Awards a Big Contract.

(Office of The Times, 22 E. Fair Oaks avenue.)

PASADENA, Nov. 28.—Following a denial by the California Supreme Court of the application of the Pacific Telephone and Telegraph Company for a rehearing of its case against the city of Pasadena, City Attorney Carr yesterday ordered the company to cease all operations, so far as the putting of wires underground is concerned.

At 2:30 o'clock yesterday afternoon, Local Manager Eric Kobbe of the telephone company that so much work would be allowed after a rehearing. At this hour Chief of Police Wood, with members of the police department in readiness if they should be needed, proceeded in an automobile to the places on North and South Fair Oaks avenue, where excavation was in progress and ordered the foremen immediately to cease work.

The order was obeyed without discussion and no alterations of any kind ensued.

Carr announced last night that no drastic action is contemplated on the part of the city. He said that the telephone company will be given ample time to consider the matter and come to the City Council and procure a franchise before any further step is taken.

The city authorities estimate that since the decision of the Superior Court was handed down, fully a mile of paved streets of the city has been torn up by the company in an attempt to get its wires underground as quickly as possible, while other streets have been marked for like treatment.

The City Attorney considers that the injunction granted by the Superior Court by Judge Bordwell expired with the last action of the Supreme Court and that there now remains nothing for the company to do but apply for a franchise. City Attorney Carr said last night:

"Ordinance No. 541, the validity of which was attacked by the telephone company, has now been sustained by the Supreme Court of the State and it is now unlawful for the company to maintain local lines without a franchise. It is also unlawful for it

to use the streets of the city for interstate business without the payment of a tax of \$1.50 a year for each pole. I have ordered that lines summarily be removed as a nuisance.

"The intention of the city is not toward any drastic action, and the telephone company will be given ample time to shape whatever course it intends to pursue. So far as I can see, the only thing for it to do is to come to the City Council and apply for a franchise."

Carr returned to the city only last Sunday from San Francisco, where he went to present the city's side of the question to the Supreme Court.

AWARD SCHOOL CONTRACT.

The Board of Education met late yesterday afternoon and awarded contracts for the new Polytechnic High School.

The general contract went to W. C. Crowell of Pasadena, whose bid was \$206,500. This includes the main work on the administration, science, domestic science, mechanical and physical culture buildings.

The firm of Munger & Munger of this city got the contract for the plumbing. Its figures were \$27,448. The contract includes all of the heating and ventilating work. The Newberry-Benjamin Company of Los Angeles will do the electrical wiring. Its bid for this work was \$20,569. M. O. Longard of this city secured the painting contract, with a bid of \$20,104.

The C. E. Cook Electric Company of Los Angeles will install the program, clock and telephone system. Seven bids were received for the general contract. The bid of F. L. Sommers was rejected because he had failed to enclose a certified check. He had supplied a bond for \$20,000 instead. Other general contractors were A. J. Atkinson, Matthew Slavin, the Los Angeles Planning Mill, J. A. Harmon and the Alta Planning Mill.

WOULD SECURE SCHOOL.

No definite agreement has yet been made between the Pasadena Board of Trade and the aviators who would establish schools of flying in the city for the winter.

Beginning at a morning meeting, the Board of Trade directors spent the day yesterday in an effort to raise sufficient funds to secure the innovation, but when night arrived it was announced that nothing definite had been accomplished and that no negotiations would be reached until noon today.

Two different aeroplane concerns are now seeking to make Pasadena their winter flying grounds, one, the Queen Monoplane Company, and the other the Glen L. Martin Company. If the negotiations between these companies and the Board of Trade are brought to a successful end, Pasadena will be in the spotlight of the world this winter and residents of the Crown City will doubtless witness some interesting flying.

HOLD ANOTHER MEETING.

The Temperance Commission held another session yesterday afternoon, although at its close the members said they had absolutely nothing for publication. They sought legal advice of the City Attorney.

The City Council today will face the problem of either voting favorably on the commission's ordinance

BURGLAR ROBBS A HOTEL SAFE.

Long Beach Hostelry Loses Money and Jewels.

School Board Rescinds Its Ruling on Holiday.

Fog Makes Trouble for San Bernardino Birdman.

(Long Beach, Nov. 27.—) When W. V. Bartow, proprietor of Del Mar Hotel, entered his office this morning he found the safe door standing open and an examination showed that it had been looted of \$200 in money and jewelry valued at \$400, left by guests for safe keeping. In an inner drawer envelopes containing \$600 belonging to guests had been overlooked.

Unhappily, the safe was left unlocked last night and, owing to the location of the office entrance, was easily effected by a side door without attracting the attention of any of the hotel employees or inmates.

Among the articles of jewelry taken were five diamond rings and an amethyst rosy necklace belonging to Mesdames Rose Shelton, R. L. Blaby and Miss Emma LeSueur. The police have been called, but entertain a suspicion that it was an inside job, by someone familiar with conditions.

RESCINDS ORDER.

The Board of Education at a special meeting this morning rescinded its order shortening the Thanksgiving holiday and therefore school will adjourn Wednesday afternoon until the following Monday.

The student body filed a strong protest against the single holiday and this, coupled with the fact that the school year books designated the two days and teachers had made their holiday plans accordingly, led to the rescinding of the ruling, with the understanding, however, that it applies to this year only.

Fog having made the covering of his biplane baggy, Frank Stites, the San Bernardino birdman, who has been here several days trying a new engine, today began the work of recovering the entire plane, which will postpone any further flights for several days. He made a short flight on the beach this morning and in landing broke one of the sticks of the framework.

NEWS BRIEFS.

Canute Cardenas, a Mexican section hand on the Salt Lake Railroad, this morning lost his balance and, falling from the front end of a handcar near the Seaside Park gas plant, was run over by the car. He has a bad scalp wound, bruises on his face and shoulder and his arm is apparently broken. City Clerk Boynton authorized the statement today that because of the new names on the Great Register and the proximity of the election tomorrow on sewer bonds and the municipal election a week hence, that he was unable to discriminate between legal voters now and a week hence and therefore had mailed sample ballots to all registered voters, but only those registered prior to October 23 will be eligible to vote on the bond issue tomorrow.

Funeral services for the late Frank McCutchan, banker and business man, who died yesterday, will be held Wednesday morning. There will be a private service at his home at 10 o'clock, at which Rev. W. W. Cleland will officiate, and another public service at 10 o'clock at the Cleveland chapel, officiated by Rev. O. L. Mason and conducted by the Knights Templar. Burial will be at Roseadale cemetery, Los Angeles, in the afternoon.

William Orr, charged with stealing a woman's bathing suit, was arrested today and after investigation was turned over to an officer of the Whittier Reform School, of which he had been an inmate.

FIREBUGS ARE AT WORK.

Hoodlums Attempt to Destroy the Salvation Army Barracks at Pomona—News in Brief.

POMONA, Nov. 28.—Late last night fire was discovered in the Salvation Army barracks at Third and Main streets by William Rule, who extinguished the blaze before any considerable damage was done. It is supposed that some hoodlums set fire to some paper which had been stuffed in a broken window pane. Fires have been numerous recently and the local officers are considerably concerned. The name of the men in custody, charged with the setting of the three fires on November 9, are given as Tony Abila and William Douglas. Their preliminary hearing will be held Wednesday.

NEWS BRIEFS.

Tomorrow will occur the school bond election. There are two separate issues to be submitted to the voters here: one is to provide \$100,000 for a grade school fund and the other \$100,000 for a high school fund. There will be two voting booths located at the corner of Third street and Garey avenue.

The parish of St. Joseph's Catholic Church has arranged for a bazaar to be held at the Fraternal Aid Theater on December 7, 8, 9, at which fancy articles, Spanish drawn work, pictures and refreshments will be sold for the benefit of the church. Rev. Joseph Munan is now in San Francisco in the interest of the bazaar. Joseph Scott of Los Angeles will make the address on the opening night and Walter Goldsmith of Los Angeles will be on the program.

The Outlook Club of the Unitarian Church was addressed last evening by Prof. D. H. Colcord of Pomona College upon the subject "Universal International Peace."

Rev. Joseph Oliver of Ontario addressed the Brotherhood of the First Methodist Church here tonight at its regular monthly meeting.

A harvest home festival was held at the Episcopal Church last evening, commemorative of Thanksgiving. Donations of fruit, vegetables and clothing were collected and will be distributed to the needy of the congregation.

CLAREMONT BANK.

WASHINGTON (D. C.) Nov. 27.—[Exclusive Dispatch.] The Comptroller of the Currency has received application for authority to organize the Claremont National Bank with a capital of \$100,000. W. S. Palmer, Claremont correspondent; J. W. Cooper, A. W. Towne, L. U. Smith; M. F. Palmer and J. T. Brooks, proposed directors.

What is Sulpho-Naphthol?

It was discovered years ago, and at once recognized by hospitals everywhere as a wonderfully effective and safe antiseptic in minor operations, wounds, etc.

AS A HEALER.

Its reputation quickly spread, and it is now used in thousands of households as a first-aid healer and purifier for cuts, burns, bruises, sores, stings, inflammations, and all such minor accidents. It relieves pain instantly and heals as if by magic. Use only a few drops in water.

AS A DISINFECTANT.

ONE TABLESPOONFUL to a GALLON of water makes a disinfectant FIVE TIMES as strong as pure carbolic acid, at a fraction of the cost, and absolutely harmless.

It destroys all germs, every unhealthy condition, destroys odors, makes drain pipes sweet and clean, purifies musty cellars. Deodorizes the sick-room and prevents spread of infection.

AS A CLEANER.

ONE TABLESPOONFUL to a PAIL of water removes grease and stains and dust that soap will not budge. And it not only cleans but destroys germs at the same time, drives water-bugs and roaches away. Makes scrubbing half as hard. Doesn't injure but softens the hands.

Sulpho-Naphthol has a hundred other wonderful uses, described in our booklet to be had at any drug store.

Price per bottle, 10c, 25c, 50c, 75c, \$1.00

The Sulpho-Naphthol Company, Boston, Mass.

-I'm going to Move

up in the Union Oil Building—but before going, I've a men's suit proposition to put to the good dressers of Los Angeles that is unusual and worth while.

To immediately reduce my stock of high-class woollens—I'll make up any of my select \$45 patterns for \$34—my \$40 patterns for \$30—my \$35 patterns for \$26.

And I'll put my very best personal service in every one of these suits. My twenty-five years' reputation in Los Angeles is your assurance that the Gordon standard will be maintained right up to the top notch.

Suppose you drop in and take a look over the new patterns today.

SOMEBODY LIGHTING THEM?

There is a well-grounded belief in Los Angeles among some of the officers that the mountain fires have been intentionally lighted and spread and kept burning by some person or persons, whose object is not known. Deputy Constable Jack Adams left last night by automobile with two

other deputies for the Calabasas region, where the last blaze was reported, and stated before starting that he has a clew which may lead to arrests before daylight. He expects to return today, and may bring a prisoner.

OIL COMPANIES SUFFER LOSS BY WHITTIER FIRE.

WHITTIER, Nov. 27.—Fire which started in the hills east of this city yesterday morning, which still rages in the high oil district, has already done considerable damage to property and has practically destroyed all the sheep pasture in the immediate vicinity.

A few oil tanks and one derrick have been burned and unless it is quickly watched it is feared the fire will get into one of the canyons where the families of the men employed at the wells are located. This would mean great loss to the several oil companies operating in this district, and destroy the homes of a hundred families.

The direct cause of the fire, which broke out on the Berry tract, is not known. When first discovered, the fire was in a good start northeast of the Whittier Crude Oil Company's lease and was being rapidly carried down on the wells by a strong wind. All the men who could be secured by the companies whose property was threatened were sent to fight the flames, and they have fought and guarded the fire from their homes ever since.

The greatest damage was done on the Home, Central, Canadian-Pacific and Colorado Oil companies' leases.

Tonight the fire is burning at the head of Turnbull Canyon and in Sylamore, one of the prettiest canyons in the Puente range of hills.

BANK PAYS DEARLY FOR MEAL FOR HUNGRY MAN.

WHITTIER, Nov. 27.—Penniless, without work and driven temporarily insane from lack of food, a man who gave his name as Wallace, hurled a stone as big as a fist through one of the large plate glass windows of the Whittier National bank about 7 o'clock this morning. It is an hour later was taken into custody by Constable E. B. Way and held in the City Jail.

Wallace said he was out of work, hungry and too proud to beg and committed the crime in order to get food and sent to jail, where he would be fed.

Walking up to the bank, Wallace saw the stone directly at the "Surge" sign on the window and aimed leisurely down the street as if nothing had happened. He was taken the County Jail on a misdemeanor charge, where he will be kept pending an examination.

The bank windows are not insured.

ANTA MONICA AROUSED OVER MUNICIPAL FIGHT.

ANTA MONICA, Nov. 27.—Sentiment in favor of the election of Roscoe Dow is growing stronger. There is little doubt that he will be the town's strongest opponent by a substantial plurality. The business men of the town seem to believe that the use of the beach depends on a sane administration of public affairs, and they also seem to think Dow has all of the qualities necessary in the Mayor of a growing municipality.

Among the prominent men of the city who are supporting actively the candidacy of Dow are: Albert Montgomery, merchant; B. A. Nebeker, merchant; J. D. Blanchard, manufacturer; E. S. Tomblin, broker; Fred Jepson, capitalist; C. E. Towner, promoter; Carl F. Schader, realty operator; C. D. Middlekauff, merchant; Dr. John A. Bales, banker; W. C. Smeltzer, manufacturer; William Chapman, capitalist; John D. Lincoln, capitalist; George D. Snyder, contractor; and P. J. Dudley, banker.

A vigorous campaign has been waged by the various organizations and an unusually large vote will be polled next Tuesday. The advent of the campaign vote has disturbed the calculations of the forecasters, in a measure, but there are few who do not express the belief that Dow will go under the wire a safe winner.

ANOTHER MERGER ON THE TAPIS?

RUMOR OF SOUTHERN TRUST IN NEW COMBINATION.

ALTHOUGH GENERAL MANAGER DENIES NEGOTIATIONS HAVE PROCEEDED BEYOND VOCAL STAGE, THERE IS TALK OF AN AMALGAMATION OF THIS COMPANY WITH SECURITY AND EQUITABLE.

THERE IS A PERMANENT RUMOR IN LOCAL FINANCIAL CIRCLES TO THE EFFECT THAT THE FAR-REACHING PLANS OF THE MANAGEMENT OF THE SECURITY SAVINGS BANK CONTAIN A MERGER WITH THE SOUTHERN TRUST COMPANY, IN ADDITION TO THE CONSOLIDATION WITH THE EQUITABLE SAVINGS BANK, HERETOFORE ANNOUNCED.

J. F. Sartori, president of the Security Savings Bank, has not yet returned from the meeting of the American Bankers' Association convention at New Orleans, but before leaving Los Angeles, in discussing the plans of his institution, he announced that a trust department probably would be established shortly after the first of the year. At this time the home of the Security Savings Bank is being remodeled to afford more window room for the customers of the institution.

The capital stock of the Southern Trust Company, which, until recently, was \$2,500,000, has been reduced to \$1,500,000, with \$1,000,000 paid up. This reduction was made, according to the vice-president and general manager, H. F. Stewart, because of the consolidation of the trust company with the Security Savings Bank, the fact that this merger is being held in abeyance will have no effect on the plans of the trust company.

Because of the reduction of the capital stock, the officials of the Southern Trust are now engaged in issuing new stock. The capitalization having been reduced one-half, five shares of the new issue are worth ten shares of the old. Therefore, the old stock is being exchanged for the new, and the man who held five shares prior to the reduction will receive ten shares of the new issue, with no loss in the face value of his holdings or in their earning capacity.

The daily quotation on Southern Trust on the Los Angeles Stock Exchange, which lately has been around \$90 a share, based on a capitalization of \$2,500,000, probably will be around \$180 a share after today. This will not mean any change in the intrinsic value of the stock.

In local financial circles it is believed that the calling off of the merger of the Southern Trust Company and the United States National Bank, which has been officially announced, was due to the state of the negotiations for the consolidation of the trust company with the Security Savings Bank. It is figured that there would be nothing to be gained by consolidating the trust company and the national bank if there is to be a merger of the trust company and the big savings institution.

Isabel W. Hellman of San Francisco is president of the Southern Trust Company, and is interested financially in the Security Savings Bank of which M. S. Hellman is one of the vice-presidents. Other officials of the Southern Trust are: J. W. Hellman, Jr., and J. A. Graves, vice-presidents, and H. F. Stewart, vice-president and general manager.

Isabel W. Hellman, who owns the controlling interest in several of the big Los Angeles banks, came down from San Francisco yesterday on a special visit. General Manager Stewart of the Southern Trust yesterday denied that the negotiations for consolidation with the Security Savings Bank had progressed further than the vocal stage.

MAKES RESTITUTION.

Man Who Takes Another's Was Bounded Up When Police Find Out His Mistake.

J. C. Coppas, who was mistaken for R. H. Carle at the Police Station on his signing himself as J. C. Carle and thereby being given possession of Carle's personal effects, including \$55.40, has made restitution and will be released.

Both men, Germans, were arrested the same night for intoxication. They exchanged confidences in their cell. Coppas, when arrested, gave the name of J. C. Carle. He was released first and accepted Carle's money and personal effects as his own when given to him by mistake by the officer. When Carle was released he refused to accept Coppas's 30 cents and trinkets.

Coppas asserted he wasn't quite sober when he got Carle's money, and after he had taken a few drinks, forgot everything.

SOMETHING FOR NOTHING.

Pocketbooks Lying on Pavement Hereafter Will Have No Attractions for This Man.

Tony Consett, No. 1124 East Seventh street, discovered yesterday morning that while he thought was a bundle of fortune was an ugly grimace. It cost him \$25.

Tony was walking with a new found friend Sunday night, when the latter suddenly discovered a purse lying on the sidewalk. The friend picked it up eagerly and told Tony if there was any money in it it would be divided.

The purse was opened and Tony's face lit up when he saw the figure "25" on the corner of a bill. Tony quickly handed his friend \$25 and demanded the purse. It was given him and the friend, suddenly recalling an engagement, went his way.

Tony went home and opened the pocketbook to view his wealth. He looked very closely and discovered the bill was a Confederate one.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

Animal Keeper Rice, offended because of charges of insubordination against him for his actions at Eastlake Park, has resigned.

At the City Hall.

ANIMAL KEEPER QUILTS IN HUFF.

PARK COMMISSION AND EMPLOYEE EXCHANGE WORDS.

When Rejected for Insubordination and Failure to Remove Mandy Squirrel from Eastlake Grounds, He Throws Up His Place and Leaves Meeting.

Animal Keeper E. B. Rice at Eastlake Park resigned in a huff yesterday afternoon after he had been rebuffed by Park Commissioner Lippincott for not obeying orders at the park. Rice was told by Lippincott that he had been guilty of insubordination and had not acted properly when Lippincott visited the park last week.

Rice was apparently willing to admit this and to take the rebuke after apologizing, but Superintendent Shearer introduced several specific instances of insubordination, among which one affecting the health of the animals under Rice's care. Shearer said Rice had been ordered to remove mandy squirrels and had not done so. He also said that Rice gave more attention to other matters in the park than to his own particular department and that he had not done as he had been told to by Foreman Gowans.

"I consider that an insult," said Rice, "if there is any question about my work I run my place, perhaps I better resign right here and now," and he did, walking away from the meeting.

His resignation was accepted at once and Foreman Gowans was directed to hire a man to feed the animals until a competent animal-keeper can be engaged.

BIDS TOO HIGH.

Unless the City Council will allow some more money or contractors will reduce their estimates, it looks as if the City Hall at San Pedro will not be finished for a while. The Board of Public Works has thrown up its hands and passed the subject over to the City Council again.

Originally, the Council agreed that the San Pedro branch City Hall should be completed. They allowed \$3000 for the job.

Yesterday the allowance was found not to be large enough for the purpose. The Board of Public Works received two bids and opened them in the morning. The bids were as follows: N. A. Linklater, \$3240; Virgil Wallace, \$3247.

The board directed Secretary Peris to write them facts to the City Council and to say: "We have referred the bids to the Chief Inspector of Buildings and passed the subject over to the City Council again."

SENDS TWO DOLLARS.

CONSCIENCE FUND ENRICHED. Because of the conscience of a young man in Portland, Or., the city treasury of Los Angeles is \$2 better off, a head has been lifted from the young man's mind, and the Mayor has received a letter that becomes an interesting part of the archives of his office. Here it is:

"Enclosed you will find \$2, which please accept in payment of poll tax for last winter. When in Los Angeles last winter I was asked by one of your deputy tax collectors if I was 21 years old, and in a low tone of voice I said 'yes' at which time I knew I was false. Just for \$2, I profess to be a follower of Jesus Christ, but since then my conscience has been dim and in order to make it clear I am sending you this. You may not consider this and I am well aware of the fact that your city would never have missed the \$2, but it is worth a penny fold more to me to know that I am right with God."

INDIAN GIRL.

DESIGN FOR FOUNTAIN.

An original clay design for a fountain centerpiece was displayed to the Park Commission yesterday afternoon by Miss Maud Dargatz of Pasadena. Miss Dargatz is a sculptress of considerable attainments and has studied abroad with great success, having exhibited with honor in Paris and elsewhere.

Her design was that of an Indian maiden bearing a shell on her head. The water of the fountain would pour out of this shell and down over the form of the little Indian girl. It was a lively design, full of vigor and originality, and the commissioners were much attracted by it. They adopted a resolution asking for permission from the City Council to engage Miss Dargatz to design a fountain for them.

If this shall be agreed to, Miss Dargatz will make the model the city desired and if accepted it will be cast in bronze and duplicated and reduplicated throughout the Los Angeles parks.

Paying for City Bonds.

J. H. Adams & Co. yesterday paid into the city treasury \$250,000 on account of the last issue of Los Angeles city school bonds. The total issue was \$1,000,000, and J. H. Adams & Co. were the successful bidders. The \$250,000 issue of Los Angeles High School bonds, bid in by the same company, is being taken up at the rate of \$100,000 a day.

Holly Picking in Parks.

In response to requests for permission to pick holly in Griffith and Inglewood parks, the Park Commission has adopted a rule that the hospitals, schools and orphan asylums are to be helped first, and if there be any left, the public may have a chance at it.

Storm Drain Troubles.

A committee from the neighborhood of San Marino and Tustin streets appeared at the City Hall yesterday afternoon with a protest in which they asked the Board of Public Works to have the storm drain cleaned, because the matter had not been settled. After Commissioner Humphreys had explained the situation, peace reigned and the protest was withdrawn.

City Hall Notes.

The Board of Public Works has recommended to the City Council that the roadway of Union avenue from First street north be reduced from 150 feet to 120 feet, making

MEANS OVER A HUNDRED THOUSAND TO THE CITY.

City Attorney Wins.

THAT his contention that the market price of stock should be used in computing the value of corporate franchises has been held to be correct by the Supreme Court of the State, was the information which was received by City Atty. Shenk yesterday.

The victory of the City Attorney on this stand was won after a fight of three years, and involved about \$125,000 for the municipality.

City Assessor Mallard assessed the franchise of the Western Union Oil Company at \$1,400,000 three years ago. Shenk was then a deputy city attorney in charge of tax matters. He advised the Assessor that the proper way to arrive at the value of the franchise was to take the market price of the stock and deduct the value of tangible property. This was done. The tax charge against the oil company was \$14,000.

The corporation refused to pay the tax. Shenk filed suit against the company.

On the report of the City Engineer, the Board of Public Works has recommended that George E. Throop's petition for the vacation of an alley along Division street, west of South Park avenue, be refused by the City Council.

John P. Krempel, architect, submitted designs for the Seventh and Figueroa-street engine house, at the meeting of the Fire Commission yesterday morning, which were approved. The board also recommended the plan of duplicating the design of the Washington and Arlington engine house, for \$15,000, in the Bedford Square tract on Western avenue, using the same plans with such slight changes as the shape of the lot may require.

W. H. Gilbert, yesterday, filed a notice with the health commissioner that he withdrew his protest against the McBean Maternity Home on Pasadena avenue.

At the Courthouse.

UNUSUAL ANGLE IN LIQUOR CASE.

JUSTICE'S JURY PROHIBITED FROM TRYING IT.

Long Beach Hotel Man Charged With Violation of Law Shows Venue Men Selected by Chief of Police Who Directed Prosecution and Is Complaining Witness.

An element probably unparalleled in the judicial history of the county was injected yesterday in the case of Earl Stanley, manager of the Hotel Virginia, Long Beach, against J. J. Hart, justice of the peace of that city, to prohibit him from impaneling a jury to try Stanley for an alleged violation of the liquor ordinance. Hart had set the hearing for last Friday, but on Thursday, H. J. Goudge, counsel for Stanley, applied to the Superior Court, for a writ of prohibition which was heard before Judge Conrey yesterday.

Goudge showed that the complaint charging Stanley with selling liquor illegally at the Virginia, had been given to Patrolman L. B. Gallimore to serve, and that he had acted under the direction of Chief of Police C. E. Moyer. Stanley was arrested and tried before Justice Hart, the jury disagreeing. Hart then issued a new venire and gave the list to Moyer who had directed the prosecution and had been the complaining witness in the case. Moyer turned the list over to Patrolman Remelt to select a jury.

Stanley came into the Superior Court, and asked that Justice Hart be prohibited from trying the case before a jury selected by the complaining witness, Justice Hart, however, brought the jury into his court, but Judge Hutton issued an alternative writ and commanded Hart to show cause why he should not be perpetually prohibited from trying the case before a jury so selected.

In answer to this was a demurrer, and a petition for a writ saying that the writ of prohibition could not properly issue to him under the circumstances.

In the court by City Prosecutor Long of Long Beach.

Judge Conrey overruled the demurrer, deciding that a writ of prohibition can issue in such cases. He gave Stanley time to prepare a counter-affidavit, and set Monday for a hearing in the case. Meantime the jury, which Justice Hart had caused to be impaneled, will have to be discharged.

MORAL WRECKAGE.

FLOATS INTO PENITENTIARY.

Denied a new trial by Judge Willis in Department 11 yesterday, Jefferson Bates was sentenced for life in Folsom Penitentiary for slaying Early Curry in Eastlake Park, August 22.

In denying the motion the court stated that Bates was a piece of scum without aim in life, and that circumstantial evidence on which he was convicted was the most conclusive that had come under his notice.

It is, it appears, an ex-convict, having been convicted of robbery in Oregon in 1902. He attempted to hold up Curry in Eastlake Park and shot him when he resisted. When Curry lay dying on the operating table at the Receiving Hospital, he positively identified Bates as his assailant, although the latter declared he was innocent of the crime.

UNDER THE KNIFE.

NOT IN THE BARGAIN.

With counsel for the plaintiff declaring that their client had been damaged by removal of certain organs without her consent and knowledge, and counsel for the defense stating such operations were a benefit, the case of Miss M. E. Webster against Dr. A. C. Thorpe before Judge Craig in Department 7 of the Superior Court yesterday morning takes on an interest.

WANT THEIR MONEY.

The action brought by F. H. Eberle and others for a writ of mandate to compel the Board of Public Works and the City Treasurer to pay certain sums to property owners along the line of Eighth street by reason of that thoroughfare being widened, was argued before the District Court and was submitted yesterday. More than \$100,000 is in the hands of the city officials, and the property owners are eager to secure the money that has been awarded them by the Superior Court, following the report of a referee.

ADMITTED TO PRACTICE.

The following attorneys were admitted to practice at the bar of the District Court: E. A. Tucker, W. J. Kennedy, George E. Jones, E. E. Leighton, Maurice Walden, Roy A. Linn, L. J. Smith, Walter T. Gun, Charles D. Findley, William E. Estep, Joseph Carpenter, Louis E. Arnold, Charles C. Kempley, Alfred H. McAdoo, and Charles A. Bank, Los Angeles; Oscar Carey, Highland; Harold Fuller, Fullerton; Francis H. Borden, New York; E. L. Hotchkiss, Los Angeles; Homer E. Sackett, San Diego; William E. Kretzinger, Escondido; Ben F. Webster, Ontario and Asa W. Drew, Riverside.

MORE LAND FOR ROAD.

The application of the Southern Pacific Railway Company to relocate the line of a canceled tract of 250 acres

NEW ACT INVOLVED.

The legality of what is known as the full-or-half act, passed by the Legislature recently, is involved in the habeas corpus proceeding heard in the District Court yesterday. The action arose following the arrest of J. B. Galiven, an official of the Santa Fe Railway at San Bernardino, and the issue was whether a train consisting of a baggage car and three passenger coaches required one or two brakemen. It was contended by the Santa Fe Railway that one brakeman was sufficient, while Dist. Atty. Goodsell of San Bernardino contended for two brakemen to man such a train. The case was argued and each side given six days to submit briefs, with a decision to follow soon after.

The litigation was of great importance on account of the fact that ten other corporations paid more than \$100,000 in taxes into the City Treasury under protest, and began suits against the city for this amount. The outcome of these suits depended upon the determination of the issue between the municipality and the Western Union Oil Company. There remains nothing for the protesting corporations to do now, but to dismiss their action.

The decision of the court just handed down brings the amount which the City Attorney has recovered for the municipality in the last year up to more than \$100,000.

Because John Hunter is not quite 18 years old he was saved from going to jail yesterday on a charge of having driven an automobile 29 miles an hour on Sunset boulevard, yesterday afternoon. He was sent to the Juvenile Court. The law specifies a jail sentence for persons who drive faster than 30 miles an hour. Other speeders arrested yesterday by Motorcycle Officers Harlan, Gardner and Gilpin were: H. Eibling, F. G. Stanton, H. Burd, and C. V. Roberts. They were fined \$25 each.

Denies He's a Masher.

J. A. Williams, who was arrested in a department store on Broadway Saturday on a charge of having paid too much attention to one of the girls behind the counter, pleaded not guilty before Police Judge Chambers yesterday and his trial will be set on the 28th inst. He was released on bail.

SEAT Sals, Montgomery and Stone in "The Old Town."

CASE OF CHILDREN.

SUITS FOLLOW RAID.

The attempt to recover nine fancy brooches known as Rhode Island Reds, which Mr. and Mrs. Charles E. Rose claimed were stolen from their ranch near Sawville last July, has led to Mrs. Frances Manville of Santa Monica filing suits for \$15,000 for false arrest and imprisonment of her minor sons, George and Paul. The case against the boys was dismissed.

Yesterday before Judge Hauser, in Department Three of the Superior Court, the defendants' demurrer was rejected by the court on the ground that Mrs. Manville erected 11 filing three separate suits instead of one. She was granted time in which to file an amended complaint. Rose took out a search warrant when he found his brooches and finding ten Rhode Island Reds in the rear of Mrs. Manville's home, he captured nine, believing that they were his own.

FEARS SUDDEN DEATH.

SO HE PENCILS NOTE.

That Abraham H. Odell, the mining man, whose dead body was found on the 14th inst., feared that he would expire suddenly and provided against any suspicion of foul play, was evidenced when his will was filed for probate yesterday. It was shown that he had in his pocket a letter on the back of which he had penciled: "Pain in the heart." It was his habit to carry a letter asking that if anything happened to him to notify Grace Scholtes.

Odell left an estate valued at \$50,000. He named as executor, Orlans Williams, Los Angeles, against the will of this city, and B. F. White of Montana.

Damages for Goods Burned.

The fire which destroyed the warehouse of the Union Van & Storage Company on the 10th inst., burned up the household goods for Mrs. F. Blumkin which she valued at \$2500. She names this amount in a suit filed yesterday against the company.

His Fingers in Way.

In Extra Sessions Court yesterday Judge Gastor sustained a demurrer in the case of John Britt Lindsay against the George H. Lee Company for \$10,000 damages for the loss of three fingers. Ten days were allowed in which to draw up an amended complaint. Lindsay, it seemed, had come off a farm and obtained employment with the Lee Company. His task was to cut circular holes in tin cans, instead of which he amputated his fingers.

New Incorporations.

Articles of Incorporation were filed yesterday for: California Pipe Line Company, incorporators, R. C. Jones, Fred Gale, Clark J. J. Doran, August F. J. Hartnack, Howard R. Crouse and J. H. Engelhart, capital stock, \$5,000,000, amount subscribed, \$100,000; Burbank State Bank, incorporators, H. A. Church, Martin Pupka, A. E. Dufur, J. T. Shelton, R. O. Church, Thomas Story, Charles B. Fischer, J. H. Avery and J. C. Conway, capital stock, \$100,000, amount subscribed, \$25,000; Economic Mining and Reduction Company, incorporators, William A. Cannon, M. H. Theodore Karcher, E. P. Ewell, E. Taylor and Henry Karcher, capital stock, \$50,000, amount subscribed, \$5; Empire Electric Company, incorporators, E. J. Rowe, E. J. Mathews, A. H. Honey, F. H. Tyler and F. J. Ryan, capital stock, \$100,000, amount subscribed, \$50.

In Riverside county was heard by Register Bureau and Receiver Robinson of the local land office yesterday. The matter was uncontested, as no one appeared to oppose the claim of the railway.

IN THE INFERIOR COURTS.

Overcoat is Sailed Away by Hands of the Law While Owner Shivers for His Property.

The law is a very cunning woman and slowly moving thing in the opinion of J. R. Rose, for when he charged W. Smith with having stolen his overcoat yesterday, he was told that he must appear February 14, and testify to that effect. Meanwhile his coat will remain in the custody of the Police Property Clerk. Rose said he believed he would need the coat before that time, as he is planning to leave the city.

Rose said he left the coat at First and Main streets yesterday morning and when he returned he was told that Smith had taken it. He found Smith and asked a policeman to arrest him.

Smith had no definite plans for the immediate future, as had Rose, so he asked a jury trial. As the calendar is filled for months to come the earliest date that the trial could be fixed for is St. Valentine's Day.

Rose said he wants to see Smith convicted, but doesn't believe he will need the coat after the trial.

EXTENSION GRANTED.

In the United States District Court yesterday Alfred Cohen, a former employee of the Los Angeles postoffice, indicted for stealing a letter from the mails, asked another week before being required to plead, and the extension was granted. An appeal was made in behalf of Cohen that his bail bond be reduced from \$1500 to \$1000. Assistant United States District Attorney Regan objected and the court refused to comply with the request.

of the owners of Gold Notes renew them instead of withdrawing their money. Almost without exception investors

Renew Their Gold Notes

for a longer term than the original investment. Very often they add more money to the original sum; some fifty times as much.

There Is a Reason

- Their money is safe.
- They receive six per cent interest.
- They can invest their money for as short a time as 90 days, or
- They can leave it for 5 years.
- They can invest as little as \$100, or as much as \$5000 with equal facility.
- They are given ample security—ten dollars for one.
- No investor has ever failed to have his money returned to him in full on demand.

Put your surplus cash in a Gold Note for 90 days. You, too, will want to renew it.

The Other Half Of The Thanksgiving Dinner

Grating that the Turkey—of course a well-stuffed with oysters and chestnuts—is the Thanksgiving Feast. How about the other half of the feast? The turkey is the main course, but before the plant is completed it will have cost \$2.00 per quarter. It is believed that the Standard expects to have the turkey in shape to handle all the orders of the year, and that at the end of the year, the plant will be completed. When running to capacity, the capacity of the El Segundo plant is 55,000 barrels daily. The plant will be expended in construction and other work, but before the plant is completed it will have cost \$2.00 per quarter. It is believed that the Standard expects to have the turkey in shape to handle all the orders of the year, and that at the end of the year, the plant will be completed. HOW TO MARK THE BALLOT.

There are many voters in Los Angeles who can easily recall when the Australian ballot was first used here. It was a common remark how hard it was to learn to mark the sheet. At the first attempt thousands of votes were lost because of errors made in stamping the ballot. Now this is in spite of the fact that public instruction has been given to all who desired to avail themselves of the privilege by experts who knew how the work was to be done. Those who acted as schoolmasters in this instance were amazed at the difficulty experienced in showing well-educated, successful business men how to do it.

At the election a week from today there will not be less than 50,000 votes cast by new voters. The number may run to 60,000. Now most of them are keen and intelligent, and no doubt a good many of them will not relish the suggestion that they may make mistakes. But the overconfidence is just the ones most in danger of losing their vote by not marking it correctly.

There is only one way to be sure, or nearly so. That is to take a sample ballot and let someone expert in the work to show the new voter how the thing is to be done. The instruction should go from the moment of approaching the polling place where the voter must look up her name and number. The name on the sheet will be exactly as it was on the register blank signed by the voter. The number must be given to the ballot clerk and the name in its exact form. This done, the voter must retire with the ballot given her to the secrecy of the compartment in the voting place. Here she will find a little bit of rubber a couple of inches long with a cross on either end of it. There will also be a little pad of ink to moisten the cross on the end of the rubber. With the ballot sheet spread out before her she is to make an imprint of the cross in the box directly opposite the name she wishes to vote for. For Mayor, City Attorney, Assessor and Tax Collector who will vote for one and one only, for School Board seven and seven only, for the City Council nine and nine only. She may vote for less than seven in the one case and less than nine in the other. But if more than the correct number is voted for it invalidates the whole ballot for that particular bunch of officials. The cross must be put in the center of the little box on the ballot, for if it overlaps and crosses the line the law provides that for that particular person the vote shall not be counted at all, as there is doubt as to which was intended to be covered.

Many women think they can take a friend into the secrecy of the marking place to teach them how to vote. This is not correct. If a voter does not know how to mark his ballot he may appeal to the officers in charge of the booth and they will appoint two persons to do the showing. But nervousness or lack of experience will not justify the demand for help. A person who can not read or one equally unable to mark the ballot may have aid, but not otherwise.

Now we say to all those who have never voted, in this way before, whether men or women, get some experienced person to mark a sample ballot for you, take that with you into the booth and very carefully stamp your ballot accordingly.

When you have marked your ballot fold it before leaving the booth. There is a number on your ballot on the margin of one end. Fold the ballot across the center, turning it end to end in such a way as to leave the number on the outside. Now fold it once more in the middle, leaving the number still outside. You then leave the booth and approach the ballot box and hand your ballot to the officer in charge, who tears the number off and calls out the name of the voter as having performed the function.

If you find you have marked your ballot wrong, what then? That ballot is spoiled. You can fold it up, putting all the names and marks on the inside, return it to the ballot clerk from whom you got it, and ask for another. Now be careful and not spoil the second. There is a limit to the patience of the law and of the election officers.

HOW OLD IS CHINA?
The antiquity of the Chinese Empire is in many respects quite as mythical as that of coveted specimens of the ceramic art. The Chinese themselves love to soar into hoary antiquity with claims of the age of their country. If old China were to appear as a voter at our municipal election next week she would differ very far from many ladies in exaggerating rather than minimizing their years of life. If she were very Chinese she would mark herself as somewhere between 30,000 and 100,000 years B. C., in other words, a good deal over 100,000 years old.

Those who know the history of China best say that the date of her foundation cannot be put back to much earlier than 2500 B. C. Some say the foundation was laid by Fohi, and that he was no other than our old friend Noah of diluvian fame. Historians tell us that the Chinese were good astronomers as early as 2500 B. C.

But get down to about 700 B. C. before the history of China takes anything like distinct character. Since then as many as twenty-two dynasties have sat upon the throne of the empire.

We have to descend the stream of time a reach of a hundred years before we find China on the actual page of modern history. They appear fighting with Scythians against enemies of these barbarians along the shores of the Caspian Sea in the year 123 B. C.

In chronological order, Chinese history, simply touching the high places, appears for their own record about as follows:

First cycle commenced	2700
First fixed date in history	651
Assumed age of Confucius	551
Great wall completed between 300 and 200	300
Movable types first used about	1000
Embassy from Rome	166
Nanking made the capital	625
Northerners preach Christianity	635
Tartars ravaged China	900 to 1000
Seat of government moved to Peking	1270
Marco Polo brings missionaries	1275
First Europeans arrive at Canton	1517
Portugal ceded to Portugal	1536
Missionaries arrive	1575
Manchu Tartars conquer country	1644-47
Tea brought to England	1660
Commerce with East India Company began	1680
Commerce with Russia began	1720
Results expelled	1724

Holding Down the Lid.

SCIENCE PROGRESS.

The first recorded instance of a telephone operator recognizing a wireless call over a telephone instrument comes from Norwalk, O., where operator Fred Curtis, sitting in the telephone office of the L. S. & M. S. Railroad, a few evenings since, caught wireless calls. Faintly, yet perfectly distinctly, he heard the call "BR" in wireless code. Curtis was for some time in the employ of the De Forest Wireless Telegraph Company and the code, of course, was perfectly clear to him. Curtis asked the operators along the line whether they heard the call, but none had. Still satisfied that the signals were really a wireless call he wrote the Cleveland office of the D. & C. line and asked concerning the call, and received word that "BR" is the Detroit call of the United Wireless Telegraph Company.

A patent has been granted for a system of generating electricity wherein the prime movers are a windmill and an internal combustion engine, both operating on the generator shaft and connected together by means of a clutch. When the windmill is idle the load is taken by the engine, and as the windmill gathers speed it works both the dynamo and the engine until the speed attains that which is designated as the critical point, when the engine is disconnected by governor balls, and the ignition circuit is opened, thus stopping the engine. A reduction in the speed of the dynamo causes the cycle of operations to work in the opposite order, with the consequence that the windmill runs free and the engine takes the load.

Experiments have been conducted for some time past near Chertsey, Eng., for the transmission of the human voice over long distances with the aid alone of the natural elements. The inventor, Mr. Grindell Matthews, is stated, submitted his discovery recently to a severe test in the presence of a number of experts. He was placed in the strongroom of a big London commercial house and locked in, with nine inches of armor steel, nine inches of fire brick, and six feet of concrete between him and the outer world. By means of his small portable apparatus he carried on a conversation with an operator in another room on the farther side of the building. So distinct and faithful was the transmission that the experts in attendance were actually able to hear the tick of his watch, notwithstanding the almost impenetrable mass between the two instruments.

The inventor contemplates a further test through five miles of solid rock between Chertsey and Tintern. He is engaged in long distance tests in connection with the War Office, and on September 9, 1911, spoke from Beachley, in Gloucestershire, to a point more than five and a half miles away near the Severn tunnel outlet on the opposite side of the river.

The inventor has named his instrument the aerophone. A complete set of instruments for a five-mile radius would cost about \$48. It is possible through this system to carry on long conversations, and each speaker can distinguish the voice of the person he is talking with. No expert knowledge, it is claimed, is required to operate the system, as the box with the instrument would be self-contained, including the battery, motor, transformer and everything else necessary for transmission.

The extraordinary vitality of bacteria is illustrated by a series of experiments undertaken by Prof. Busson, of which the German scientific review Microcosmos gives an account.

Seven years ago Prof. Busson transferred a culture of bacteria coli to a glass tube filled with chemically pure water, which is a germicide, as it affords no nourishment for the microbes. Yet that didn't kill the bacteria. In the period stated they had prospered and increased.

The explanation given is that as soon as the water became tinged, however slightly, with alkali detached from the inner wall of the test tube it lost its germicidal properties, and those bacteria that had subsisted at first provided food for the survivors.

Turn About.
[Cincinnati Commercial Tribune:] Gaby Deslys had to pay \$175 for dinner that a bogus Count ordered for her. Now she knows how ex-King Manuel feels.

[Cleveland Plain Dealer:] She: And you say that you have always avoided blaming me. I'd like to have you mention "me" instance.

THE CIGARETTE BOY.

EMPHATIC EXPRESSIONS OF CALIFORNIA EDUCATORS.

By Supt. Keppel of Los Angeles County Schools.

The things that we are teaching in regard to the use of tobacco are true. It does poison children. It does stop their growth. It is necessary for us to continue teaching those tremendous truths by precept, and by example. There is no use to grow weary in well doing, nor is there any use to expect all the people in the world to do right immediately. Conditions, however, are growing better under the scientific teachings of the truths in regard to the use of tobacco, narcotics and alcohol.

By Principal Paul G. Ward of the Red Bluff High School.

There have been volumes of stuff printed to show why the boy quits school. Every such volume should have the picture of a cigarette boy as its frontpiece. Tobacco, worse than any other factor, is responsible for those boys who fall by the wayside. The records, if ever brought to light, will prove it.

Dr. David Starr Jordan, president of Stanford University, says: "Such boys are like worms applied. They drop long before the harvest time. Very few of them ever advanced far enough to enter college. Very few of those who enter last beyond the first year." I want to add my experience to that of Doctor Jordan. I have been in charge of various California schools for the past eighteen years, most of the time being supervising principal of both grammar and high school, and invariably in that experience the tobacco boy, if he ever reached the high school, did so in a weakened condition. Never, in those eighteen years, have I graduated a tobacco boy from the high school with sufficient credit to gain entrance to the State University. Not one of them has ever made any serious effort towards a higher education.

The whole school course is strewn with tobacco wrecks.

Out of the forty-two boys enrolled in the Red Bluff school during the year just closed only four are using tobacco habitually. Two of these, although they have been with us for three years, have done less than two years of work, and have done that badly. As far as getting an education is concerned they are hopelessly lost. The other two are deficient in their work and will only help to swell the records against tobacco.

By Supt. C. H. Dunton of the Preston State School.

Of some 700 or 800 boys who have come under my care as superintendent of the Preston School of Industry during the past two years, my records show that 90 per cent. use tobacco, and that 85 per cent. use it in the cigarette form. In my judgment, the smoking of cigarettes by young boys, from 10 to 15 years of age, is the most insidious and subtle destroyer of the boy's mental faculty of all habits followed by him. It is also the hardest to correct.

While we absolutely prohibit the use of tobacco in this institution, in any form, it is an impossibility, with all our vigilance and care to keep it entirely away from the cigarette boys. There is nothing they will not do to secure tobacco in any form, either the stump of a cigar, or an old discarded chew, which they fashion into their beloved cigarette, and, despite our efforts, manage to get a few puffs. I believe that more good behavior credits are lost by the boys in this school from the tobacco habit than from the infraction of any other one rule governing their conduct. There can be no legislation too drastic, in my judgment, against the selling of tobacco, especially in the cigarette form, to minors, either boys or girls; and all such legislation should be rigidly enforced. Every teacher in the State of California should consider himself or herself a specially-appointed police officer to see that such legislation as we have in this State of California is enforced.

A very discouraging experience which we have in connection with the cigarette habit is that after we have had boys in this institution from twenty-four to thirty months during which time they have very little opportunity to indulge in the habit, a very large percentage of them, as soon as paroled, return to it almost immediately, and we have many instances of broken parole where boys are returned to the school for the second time, which we can trace directly to excessive cigarette smoking, because of the fact that the employee to whom we have sent the boy on parole, will not put up with a boy who has this habit to excess.

By Edward Hyatt, State Superintendent of Public Instruction.

Boys, there are such a lot of you that I don't get to write to you very often. I think this is very important, else I would surely not take the trouble to write it. The fun and pleasure and success of your whole life and that of your friends and relatives are going to depend very largely upon what you do during the next ten years; and I am writing this to ask each particular one of you to stiffen up his will, to make up his mind, to hang to it like grim death, in resolving to get along without cigarettes for ten years to come. No one can do this for you. If you haven't the will to do it yourself, it is done.

Believe me, you have a long and tough old fight ahead of you to keep your head above water and take care of yourself and make a living for fifty years and more in the fierce competition and strife of the world. All the time you'll keenly need every ounce of strength and steadiness and will that you can summon to your aid.

But here, if you take on the habit of smoking before you are grown you weaken your strength and steadiness and will. The other fellow will get away with you and you will go down to humiliating defeat many a time for that reason—simply because in both your mind and your body you are not so tough and strong in body nor so cool and steady in mind as you would otherwise have been.

I say this knowing that cigarettes are gay and stirring for many stylish things will injure and weaken us; say it knowing that you will one some handsome well-dressed, striving fellow earnestly smoking them—yet still more so the bedazzled him and hard-faced criminal; say it knowing that you are anxious to be a man and that perhaps the very man you would most like to be is himself a smoker—but if you can get me to the reformatories and prisons you will see thousands of miserable and unfortunate fellows you would not like to be—they, too, are smokers; and their smoking helped to drag them down.

[Woman's Home Companion:] "How did that story pan out about the man up in the Bronx who found the big halibute on his back atop this morning?" asked the city editor.

"Nothing in it," replied the reporter. "He discovered it wasn't a halibute after all. The loeman left it there."

Pen Points: By the Staff.

Dr. Sun of China is still shining.

No call yet from China for Col. Bryan to take the job of Presidenting.

That mailed hand of President Madison appears to be enjoying a fairly busy season.

The indorsement of Col. Dryden in the final spoonful of basting on the La Pulla goose.

Some sweet day Rodgers will reach the Beach in his airship. With the accompaniment of the "some."

Haven't heard from "Doc" Wiley for quite a while. What is the scientific way to kill water, Doc?

It is quite possible that the message of President Taft will recommend wider limits in the Pullman cars.

What has become of Chancellor Duff? About time for him to say something in the defense of the steel trust.

Uncle Jud Harmon is of the view that this running for the Presidency is just a dinged swing after another.

Now for the special session of the California Legislature. It is a serious question what we have to be thankful for this year.

After the women discover what an aid to bill collectors it affords they won't be anxious to have their names printed in the city directory.

Another feather in the cap of the administration. We can now build ships without developing scandals. It has not always been so.

There is some talk of making the compulsory in all California colleges next year and placing reading, riting and rithmetic in the elective list.

Uncle Sam has looked into the matter and decided that it won't do for him to carry to carry intoxicating liquors—the inside or outside.

A Los Angeles man has invented a plane without a rudder. And yet some people argue that the candidacy of Job Samman has had no effect.

That Democratic Congress is about ready to be called to order. Seconds promptly equipped with sponges and towels will lay to get to the proper corners.

It is to be noted that the average man manages to keep busy making a living and it does not seem that constant practice of the job makes it any easier.

The Chinese revolutionists have sent headquarters in Chicago. They ought to communicate with Senator Lorimer if he desires to put something over.

Bombs are being dropped upon the ears of the Arabs by the Italians. This has the effect of keeping the Arabs from hiding their tents and silently stealing away.

Down in Tucson eggs have been sold as high as 20 cents each. Lute bunnies might do a good turn by inventing a spineless cactus that would lay eggs.

Don't hear anything these days of the old-fashioned mother who used to tell the gross-covered apple pie. Her place would add much to the sum of human pleasures.

Class in political economy, please stand up! What will be the name of the Vice-President of the United States? Stand up to that everybody in the rear of the hall can hear.

What has become of the old-fashioned clothing dummy that stood on the sidewalk wearing a derby hat, an overcoat and chains through the sleeves, and a mousethroat?

The Navajo Indians are said to be in need of food. That's what they get for teaching their young men to wear the kinks instead of making baseball players out of them.

Capt. Elmer Baldwin announces that he will try to locate the North Pole in the Thought Commander Peary and old Cook had attended to that. Or, has the pole been moved?

The cold weather back East has its compensations. It cuts off the number of people who stop along on the street to ask foolish questions. That is one good thing about the Boston blizzards.

The annual cornering of the cranberries is reported to be heading toward the Coast; but we shall try to make merry with the same, no matter what the price of the Cape Cod red-heads.

"CONQUERORS."

Ye who ascended into the cosmic black, Pledged to the glory of a mighty deed, Cleanse-script of cowardice, of self-giving, Laughing to see the dullest of your kind Of death below you in the swimming tide, How shall we build a monument to you? How shall we build a monument to you?

Shall match the marvel of your valor? Shall match the marvel of your valor? Shall match the marvel of your valor? Shall match the marvel of your valor?

Soldiers are we, before whose glorious deeds Praise topples prone, and pretty daisies die; Ye gladly forlorn life and all it brings, That in the kindling centuries to come, Men, free as gods, shall cleave the air on wings.

Shall stride their superstitions as a cloud, Mounting with ecstasy the waiting hours Of willing clouds, unfettered as the sky.

Brave navigators ye, in ships of air, Heralds of progress, servants of the dream, Great as Columbus was, and yet more true, Ye plumb the regions of uncharted space, That millions now unborn shall yet be proud, How mind has conquered matter, earth, and where!

Ye dare, that man may see himself, A Lord of the air, and Master of his dream, [Angela Morgan, in the Springfield publican.

336 So. Broadway

For all of which we are all duly grateful. Never was the famous interpreter in better form—physically as well as artistically—than yesterday afternoon, when he made his first bow before an Orpheum audience in Los Angeles. He sang three German songs, all of which were very best in his repertoire. The first was the wonderful "Erkling" with its creeping, fascinating horror; the second was Schumann's "Ich Grolle Nicht." (I am Not Wrathful) and the third, "The Two Grandchildren," also by Schumann. It would be both impertinent and superfluous to dwell at large, on this late day, of Dr. Ludwig Wulmer as an interpreter of the great German folk-songs. We know that he stands alone and unrivaled in this particular field, and that his dramatic insight and sympathy are as true as they are subtle and delicate. While he sings in German—as he should—the management of the Orpheum provides a printed sheet to each patron, with both English and German script. Another German musician on the Orpheum boards this week is Lillie Schreiber, a tiny little voice that fits her face and figure. Miss Schreiber sings once in German and twice in English. Personally, I preferred the German song, when she came out as a dashing cadet with a monocle, for, though it wasn't a bit more incomprehensible than those rendered in English—with an accent—it was much more amusing. Her last appearance was as a Pierrot in pink. Rager Midgley and his company give a farce which is both unique and funny. Midgley plays a valet and John Clark plays the master. The pantomime of the master using the frame of a mirror, not knowing the glass to be broken, while the valet imitates all his motions on the other side of the frame, is mighty amusing. Too, the histrionic art of Midgley in the funny is very good. Ed Howard and Frank North give some clever patter in "Those Were the Days." (Continued on Twelfth Page.)

Only the EARLY shoppers get any real enjoyment out of Christmas gift gathering. Then think of the hardship brought on the salespeople and delivery force by the late buyers.

Sample Undermuslins
Priced a Third Under Real Worth

Manufacturer's show-room samples—fresh, crisp y-clean garments from a factory which turns out no coarse, trashy stuff. So, despite the low prices, you may depend upon every piece being correct in cut, carefully made and daintily trimmed—and the cost will average a third less than duplicate articles bring when sold from regular stock.

\$1.25 to \$13.50 gowns priced 75c to \$8.
75c to \$5 drawers priced 45c to \$3.
\$1.50 to \$15 Princess slips priced 90c to \$9.
\$1.50 to \$12 combination garments priced 90c to \$7.
\$1.50 to \$25 skirts priced 90c to \$15.

Many of yesterday's shoppers said they were buying them for Christmas gifts.

(Main Floor, rear)

Women's Suits,
Worth Up to \$50 . . \$25

All new—DISTINCTIVELY new—the very latest cuts and splendidly tailored.

Every correct color in serges, broadcloths, mannish mixtures.

English worsteds, diagonals, homespuns, hopsackings and basket weaves.

Some severely tailored, some elaborately trimmed.

Linings of messaline and Skinner satin.

Values up to fifty dollars—choice of the collection for twenty-five dollars.

(Second Floor, front)

Seasonable Wash Goods
---Some Specially Priced

The unshrinkable Viyella flannels in many new striped effects for waists and house dresses 75c a yard.

Hydegrade galateas in a splendid variety of stripes, checks and solid colors, 18c.

Ripplette—a new wash fabric for children's dresses—15c a yard.

Two Specials for Today and Wednesday:

36-inch Longcloth of the 20c quality at \$2 a piece of 12 yards.

38-inch Countess Sea Is and Nainsook of the 32 1/2c grade at \$2.85 a piece of 12 yards.

(Near Third Street Corner Entrance)

OLD-TIME REMEDY DARKENS HAIR,
GIVES COLOR TO FADED, GRAY HAIR

From time immemorial, sage and sulphur have been used for the hair and scalp. Almost everyone knows of the value of such a combination for darkening the hair, for curing dandruff and falling hair, and for making the hair grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays, almost every up-to-date druggist can supply his patrons with a ready-to-use product, skillfully compounded in perfectly equipped laboratories. The Wyeth (Chemical) Company of New York put up an ideal remedy of this sort, called Wyeth's

Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is turning gray or coming out, don't delay, but get a bottle of this remedy today, and see what a few days' treatment will do for you.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Two of the Dare-Devil Motor Racing Pilots. Who won first and second in the Vanderbilt cup race. Above is Ralph Mulford, in the winning Lozier, just before he crossed the tape with a fast dash at the finish, and below is Ralph de Palma, who drove the Mercedes, the foreign car that finished second to the American-made speedster.

Kid Dalton is a regular two-fisted fighter all right, but he seems somewhat absent-minded as to which camp he is supposed to be training with. To say the least, it's a little irregular for a sparring partner to be whaling into Wolgast on Sunday and into Walsh on Monday.

The kid went out to Doyle's on the Sabbath and joyously lit into the champ. He walloped Wolgast so viciously that it seemed to some of the excited fans that he had the little Dutchman going.

He was expected out there again yesterday by Wolgast and his trainers. Instead, he unexpectedly hopped up at Venice in the Welsh training camp. Charming unconventional of Kid Dalton, was it not?

Freddie accepted his offer as a try-out; but Brother Dalton seemed to have lost the combination. Freddie slammed him all over the shop and knocked him down two or three times. And so suddenly! And so easily! Just hit and down again!

Why what a surprise! Wolgast couldn't hit him! Just like that!

While Tom Jones was fuming around Doyle's, wondering what had become of the Italian, Dalton was breathing his conclusions in a hoarse whisper into the ears of the fans. He wasn't a bit secretive.

"I never would have believed it," he said. "But that Freddie Welsh can hit much harder than Wolgast. He sure can. That left of his is a wonder. Wolgast has a right hand blow but Welsh has two hands and hits harder than Wolgast with either one."

"I like em both, but Welsh looks like the winner to me."

"And," added the Kid, nervously, "I don't want to get roasted in no newspaper—me just trying to earn my living."

From all of which it would certainly appear that Freddie Welsh will win the fight to a dead moral certainty. Why what betting man can doubt it, after this? Huh!

Well, well, kiddo: you're a pretty good performer in the ring, but you seem to lack finesse at what Bill Pickens calls "accelerating public sentiment."

Just to settle this matter once for all, we will tell you what Freddie Welsh intends to do when he is through fighting and why.

Welsh is a very wise young gentleman and understands perfectly that a fighter's career is fast and furious and that he makes big money for but

FLANDERS WINS FAST ROAD RECORD.

E. A. Michelberger, in a Flanders "twenty," smashed all road records between Pomona and Elsinore yesterday afternoon in a fast dash over the eighty-six miles of rough country highway. The Flanders was sent out from the orange belt city with a spur that made the little car look like a stripped racer in the Vanderbilt and it disappeared down Euclid avenue in a cloud of dust.

Two hours, twenty-three minutes and fifty seconds after leaving Pomona Michelberger swung into the sleepy little city of Elsinore with a handsome cup won. This trophy will belong to the Flanders provided the mark is not lowered before Thanksgiving Day. B. W. Johnson was the mechanic on the Flanders during the fast run.

The best previous time was 3 hrs. 43 min. 30 sec. The twenty-horse-power car lowered this mark by twenty minutes and is in shape for another such run. Joe Oiler, of the Studebaker Bros. Company, received the news yesterday afternoon five minutes after the trophy was won. He has a place ready for the prize.

A short time. Therefore Welsh has carefully been preparing a place to jump to when his fighting days are over.

He will open a second Muldoon health farm similar to the national renown one at White Plains. He has established himself as a student of dietetics and has never lost an opportunity to make known that he was deeply informed on the art of keeping well. When he thinks that he is through fighting he will immediately enter this new field and in all probability will open his health farm adjacent to Los Angeles.

Along this line Welsh wants it clearly understood that the farm will not be opened immediately after his battle with Wolgast as he believes that he will win, which will mean at least one year's strenuous fighting all the aspirants to his crown.

"This fellow Jones and Welsh yesterday," who is managing Wolgast is sure some manager. You see he is busy signing up all the battles he can for Wolgast before the Thanksgiving date, as after that date Wolgast will not be as big a drawing card as he is now."

Do you get Welsh?

There are an unusually large number of ladies in preparation for the midwinter tennis tournament at Coronado. It is stated that there will be more lady entries in this tourney than in any event of the year. Miss May Sutton and Miss Florence Sutton have been responsible for this renewal of interest among the lady players, for during the last month they have busied themselves in creating new interest and have been week-end guests at several house parties where a tennis crowd had been invited. Miss May Sutton and Miss Florence Sutton will enter the tournament, which will be their first public appearance on the courts since their summer's campaign in the East, with the exception of the two acts which Miss May Sutton played at Pasadena last month.

MULFORD IN LOZIER WINS VANDERBILT CUP CONTEST.

Great Motor Speed Battle Won by American Make of Car—Fast Foreign Devil Is Second—Ralph de Palma Finishes With Mercedes Two Minutes Behind Winner. E. M. F. Wins Light-Car Race.

BY J. ALLEN SLOAN.

SAVANNAH (Ga.) Nov. 27.—[The] Savannah Dispatch.] Ralph K. Mulford, hero of many a gasoline battle, and the famous White Lozier car came home victors in the seventh running of the famous Vanderbilt cup classic today, after one of the most remarkably consistent races ever staged on a road course, averaging 74.87 miles per hour for the entire distance of 231.23 miles.

Thousands of dollars had been wagered that the world record made over the Santa Monica course would be broken, and when Mulford came down the stretch, 20,000 people rose en masse to declare him a new world champion, but a mistake had been made in the calculation made by the head timers and when it was certified, the inward disappointment was visible on the faces of every Savannah enthusiast who had hoped that Los Angeles would be robbed of the honor of having the fastest course in the world.

But little time was allowed the multitude to reflect over the disappointment as Ralph de Palma, the favorite in the race, and pilot of the big foreign Mercedes, came tearing down the stretch at a rate of speed ten miles an hour faster than Mulford, and just a little over two minutes behind the Lozier star.

Spencer Wishart, one of the group of multi-millionaire drivers and team-mate of Ralph de Palma was third, ten minutes and a few seconds behind the winner.

People from far corners of the world were here to see the great speed contest, and so distant city Sydney Smith headed the Coast delegation and they were almost to a person backing the Fiat team to win.

The greatest disappointment was caused when Joe Watson, driving E. E. Hewlett's Fiat car of Los Angeles, stopped at the pit at the end of the second round. He pointed to the radiator and shook his head, but only a few seconds were wasted in refilling with water and Watson was off again, but the radiator trouble kept up and at the end of the fifth lap he dropped out.

David Bruce-Brown, winner of last year's Grand Prix race, favorite with de Palma in today's race, followed Watson into retirement and narrowly escaped a serious accident when he lost a rear wheel on his big Fiat on the seventh lap.

Both Marmon's driven respectively by world's speed king, Bob Burman and Cyrus Fetscher, started out well but experienced trouble and dropped out of the run. Hughes Hughes also fell by the wayside. He should have won the Savannah challenge trophy in the opening and much was expected of him with his big six-cylinder Mercedes, but the pace was too swift and he also left the course.

For the first four laps de Palma was well in front but in the fifth lap Ralph Mulford forged ahead and never again had to eat the dust of another machine. Practically eight cars remained in the race at the end of the eighth lap, and Mulford was out in front with four minutes to spare. De

Palma and his team-mate, Wishart, were having a battle royal for second place, with Louis Lefevre in the Pope-Hamilton hanging on their heels like a pit bull terrier.

The spectators lost track of their watches for a minute to watch Mulford with his Lozier, the aviator who had come over the course in his biplane and was having a lot of fun following the cars down the home stretch. As he disappeared with a flock of vultures following him off towards the Atlantic Ocean, the spectators were brought to their feet with the announcement that the world's road record for 232 miles, made at Los Angeles, had been broken by Mulford, who averaged a fraction of a second faster than Herrick. A minute later the announcement was made that Mulford's average had been 74.87 miles an hour, against Herrick's record, made on October 14, of 74.43 miles an hour.

De Palma kept driving at a maddening pace. He made up the two minutes and as the finish approached he grew more desperate. But Mulford kept right on at the pace that was spelling him a winner at the end of every lap. And as the last lap was reached, and starter Wagner waved the green flag in front of him a great cheer went up. Only a serious accident could keep him from what proved to be the most popular victory ever scored in Vanderbilt cup history. He was never figured at the start of the race and even Harry Grant, twice winner of the famed trophy, was looked upon as a greater favorite than Mulford, but he finished a bad fourth to Ralph, although he drove a similarly consistent race to his team-mate.

FAST COURSE. That the Savannah course was fast was known before the Vanderbilt cup speed monsters appeared. The two races for light cars run in the morning had broken all previous records for machines of 400 cubic inches and under, and had not the little Case machine, which was leading by over a minute at the end of the fifth lap, and averaging seventy miles an hour, met with an accident, the time of last year's grand prize would have been equalled and possibly bettered by this class of cars. As it was Hughes Hughes, driving a Mercer, averaged 62.35 miles, covering the 232.33 miles in 3h. 15m. and 37s.

Lucy Heineman was second in the race, covering the 232 miles in 3h. 41 minutes, while Joe Nixson of Los Angeles, driving a Marmon was third, three minutes behind Heineman. The Los Angeles contingent at the races gave Joe a hearty cheer as he crossed the line.

E. M. F. WINS. The Tideman trophy cup went to the E. M. F.'s. They had three cars in the race and finished one, two three. Three others came started.

Tonight the talk has switched to the grand prize, the great international classic, which will have eight foreign entries and eight American entries, two of the foreign cars will be driven by Victor Hémery of France, and Louis Kéck of Germany. Ralph Mulford, today's winner, will drive the same car he piloted in the Vanderbilt cup race, and many believe that he will stand an excellent chance to land up the American honors again as he did against the Fiat today.

WELSH'S FIAT. People from far corners of the world were here to see the great speed contest, and so distant city Sydney Smith headed the Coast delegation and they were almost to a person backing the Fiat team to win.

The greatest disappointment was caused when Joe Watson, driving E. E. Hewlett's Fiat car of Los Angeles, stopped at the pit at the end of the second round. He pointed to the radiator and shook his head, but only a few seconds were wasted in refilling with water and Watson was off again, but the radiator trouble kept up and at the end of the fifth lap he dropped out.

David Bruce-Brown, winner of last year's Grand Prix race, favorite with de Palma in today's race, followed Watson into retirement and narrowly escaped a serious accident when he lost a rear wheel on his big Fiat on the seventh lap.

Both Marmon's driven respectively by world's speed king, Bob Burman and Cyrus Fetscher, started out well but experienced trouble and dropped out of the run. Hughes Hughes also fell by the wayside. He should have won the Savannah challenge trophy in the opening and much was expected of him with his big six-cylinder Mercedes, but the pace was too swift and he also left the course.

For the first four laps de Palma was well in front but in the fifth lap Ralph Mulford forged ahead and never again had to eat the dust of another machine. Practically eight cars remained in the race at the end of the eighth lap, and Mulford was out in front with four minutes to spare. De

Palma and his team-mate, Wishart, were having a battle royal for second place, with Louis Lefevre in the Pope-Hamilton hanging on their heels like a pit bull terrier.

The spectators lost track of their watches for a minute to watch Mulford with his Lozier, the aviator who had come over the course in his biplane and was having a lot of fun following the cars down the home stretch. As he disappeared with a flock of vultures following him off towards the Atlantic Ocean, the spectators were brought to their feet with the announcement that the world's road record for 232 miles, made at Los Angeles, had been broken by Mulford, who averaged a fraction of a second faster than Herrick. A minute later the announcement was made that Mulford's average had been 74.87 miles an hour, against Herrick's record, made on October 14, of 74.43 miles an hour.

De Palma kept driving at a maddening pace. He made up the two minutes and as the finish approached he grew more desperate. But Mulford kept right on at the pace that was spelling him a winner at the end of every lap. And as the last lap was reached, and starter Wagner waved the green flag in front of him a great cheer went up. Only a serious accident could keep him from what proved to be the most popular victory ever scored in Vanderbilt cup history. He was never figured at the start of the race and even Harry Grant, twice winner of the famed trophy, was looked upon as a greater favorite than Mulford, but he finished a bad fourth to Ralph, although he drove a similarly consistent race to his team-mate.

FAST COURSE. That the Savannah course was fast was known before the Vanderbilt cup speed monsters appeared. The two races for light cars run in the morning had broken all previous records for machines of 400 cubic inches and under, and had not the little Case machine, which was leading by over a minute at the end of the fifth lap, and averaging seventy miles an hour, met with an accident, the time of last year's grand prize would have been equalled and possibly bettered by this class of cars. WITT IN E. M. F. WINS LIGHT CAR EVENT AT SAVANNAH.

Hughes in Mercer Takes Medium Car Race and Thunders Cheer Cars as the Speed Demons at the Wheels Try in Vain to Lower Santa Monica Road Race Records in One of the Greatest Motor Speed Battles.

SAVANNAH (Ga.) Nov. 27.—Frank Witt, in an E. M. F. "Thirty" won the Tiedeman trophy race here today. His time for the 171.40 miles was 176.19, an average of 58.34 miles an hour.

Robert Evans, in an E. M. F. "Twenty" finished second, and Jack Tower, in another E. M. F., was third. This made a one, two, three finish for the E. M. F. camp, and the winner's time within thirteen seconds of the track record for the course.

Billy Knipper, in a fast Lancia car, won this race last year. His average time was 58.47 miles an hour. Witt was not hard pressed, but finished with two of his teammates close behind him. Witt just romped to the finish.

Evans' time for the race was 3hrs. 15m. and Tower's time was 3hrs. 1m. Both Evans and Tower have figured in race meets before and the work of this trio of drivers was respectable.

A cheer from the crowd at 7:54 signified the start of Louis Heinemann in a Marmon car, the first off in the Savannah challenge trophy race. At intervals of thirty seconds the other six cars in the contest were sent away, and right behind them, at similar intervals, the six cars in the Tiedeman trophy race.

The fastest time of the first lap was made by Louis Disbrow, in a Case, fourteen minutes and ten seconds, or more than seventy miles an hour. This was in the Savannah challenge race.

Mortimer Roberts, in a Marmon-Detroit, made the first lap in 16:25, the fastest time of any of the Tiedeman contestants.

Hughes also led the second lap in the Savannah, making the distance in 14:25. The Case car "23," driven by Harry Buckley, seemed to be dislodged.

Harley Hughes, in a Mercer, won the Savannah challenge trophy race of 222.32 miles.

His time was 146m. 37s., an average of 58.34 miles an hour. Dawson won the race last year in a Marmon, averaging 62.92 miles an hour. Heinemann, in a Marmon, finished second. His time was 29:18m. 41s.

At the end of the fourth lap in the Savannah, Disbrow still led with a total elapsed time of 59:29. Hughes, in a Mercer, was second with a time of 1:00:14.

His time was 146m. 37s., an average of 58.34 miles an hour. Dawson won the race last year in a Marmon, averaging 62.92 miles an hour. Heinemann, in a Marmon, finished second. His time was 29:18m. 41s.

At the end of the fourth lap in the Savannah, Disbrow still led with a total elapsed time of 59:29. Hughes, in a Mercer, was second with a time of 1:00:14.

machines entered in the Savannah challenge trophy race. In this 222-mile event, the winner took the cup and a cash prize of \$1000.

Seven cars were entered in the Tiedeman trophy. A cup and prize of \$1000 was the winner's reward. The distance of 171.40 miles required the closing of the course ten times.

The total amount of cash prizes for the races offered by the manufacturer was \$25,000.

Ralph De Palma, in a Mercedes, made the fastest time of 12m. 38s. in the first lap of the Vanderbilt cup race.

De Palma led the field in the third lap in the record time of 40:42, making a total elapsed time of 40:42.

Mulford jumped into the lead in the fifth lap with 48:42. De Palma taking second with 49:25.

Bob Burman, driving a Marmon, shoved into third place with 49:50.

Harry Grant, winner of the Vanderbilt cup race in 1909 and 1910, finished today a bad fourth.

Bob Burman, dropped out of the Vanderbilt race. A flying stone disabled his Marmon at a time when he had a fair chance to win.

Athletic.

CAREER IS CUT SHORT BY SHOT.

EMMET CONDEE'S INJURY MAY BE PERMANENT.

High School Star May Never Recover Full Use of Left Arm, Which Was Shattered at Shoulder by Accidental Discharge of Shotgun at Balboa Sunday.

Emmet Condee, who was accidentally shot Sunday afternoon at Balboa, is one of the best athletes ever registered at the High School and easily the most valuable man on the Rugby football squad.

In company with the Pacific evening, and operated upon Sunday evening, and the latest reports were that he was doing as well as could be expected.

The doctors think that he may save his arm and that he may have use of it in most movements with the exception of being unable to raise it above his head.

"Pete," as he is called, is probably the most popular boy in the school at the present time. He has been active in almost every branch of athletics and, as an athlete, had a very promising future.

Although weighing only 125 pounds, he was one of the strongest men on the squad, and it was not an unusual thing to see him handle an opponent almost twice his size with apparent ease.

In baseball, he was slated to hold down third base or short, and last year was L. A. High's best entry in the pole vault, his record in this event being 10ft. 9in.

Besides these regular lines of outdoor athletics he was a splendid gymnast, and for the last two years has always appeared with the club in the exhibitions in swimming also.

As usual a star performer, being a member of the water polo team and on several occasions represented the school in fancy diving contests.

All his team-mates are feeling keenly the misfortune that has befallen him, not so much on account of the loss of a valuable man, but more that he might be deprived of any further pleasures in these lines, as there was never a more enthusiastic, cleaner player than "Pete," and his quick recovery is fervently hoped for by the whole student body.

WILL HAVE TO CHANGE LINE-UP.

The loss of Condee from the backfield will create quite a hole and whether it can be filled with any degree of satisfaction can not be told until the teams have finished their argument next Thursday. Last evening the Blue and White warriors went through their last practice on their own field, as Tuesday they will scamp around the sandvats at the University grounds so as to get used to the general conditions.

Brooks, who has been playing at left wing, was used at second-base and

Capt. Conway moved out to the three-quarter position. This arrangement will no doubt be permanent, but the vacant wing place has not yet been settled upon. Coach Noble played Al Maguire as a flanker instead of his regular full-back place Monday and Toland has been getting a good deal of coaching on touch kicking which would indicate that he has some chance to be the last line of defense when the game is in a critical position.

The forwards all have been playing their positions since near the first of the year and although several of them are not quite the best that are available yet to change them at this late date would tend to spoil their team work and this has been their strong point in every game.

In the Politeknika game they were beaten in the regular formations, but easily made up for the same by the open work by clever team dribbling.

As this may be the last game the team as a whole will wear the short white Rugby trunks instead of the knee football pants that they have been wearing all year. This is the system that the California Varsity always uses and the High School men are expected to adopt it.

AMATEUR NOTES.

Manager Ed Lawver of the Occidental College basketball team announces that the season will be opened Saturday evening 7:30 p.m. by a game with South Pasadena High School.

The Tigers figure on the conference basketball championship this year, and are working with all their might towards this end.

The withdrawal of Pomona and U.S.C. from the basketball championship leaves the title between the Tigers and the Quakers. This battle will be fought out in a three-game series, starting with January 5 at Occidental, the second game to be played at Whittier, January 12, and the third game to be played, if necessary, on a neutral court a week later.

Poss Halbritter, the enterprising manager of the S.C.A.C. football squad, has given up all hope of a game of American football for Thanksgiving Day.

He tried every team playing the old game in the South, but was unable to arrange a game. He then tried to get a good Rugby team for the Turkey-day date but was unable to make connections.

Now he has decided to bring one of the northern teams south for a game of Rugby on Christmas Day. He hopes to stage a big attraction for that date.

This Southern Swimming Association, formed by our old friend Les Henry, is bound to be a big success if it is handled in the right manner. It will do more towards the advancement of swimming in the sport than a thousand of the old-fashioned associations which held meets every six or eight months.

Over in Australia, where there are more good swimmers to the square mile than there are in the entire State of California, the sport has

been fostered and helped along by the holding of meets every week. The meets are handicapped affairs and thus the most humble aspirant is given a chance to bring down a prize and thus in the end a play is stimulated. On with the good work, Les.

The announcement that there was a possibility of the Pomona College conference championship football team meeting the team from the University of Michigan in the near future, is received with a good-natured but none the less justified "haw haw" by the Southern California football fans.

And to relate, the days of such a high-class team's making a visit to the Coast, to play one of the western teams, are over. The defection of California and Stanford to the English game has taken away from the high standing of the California colleges in the line of American football and now the easterners play in their back yards and on their own turf.

The funeral of Noble Brutus Rennecker, the well-known Whittier College athlete, was held at the Friends Church, Whittier, yesterday afternoon. The entire student body of Whittier College was present and delegations were on hand from Whittier High School and Occidental College.

Pomona College and the University of Southern California sent condolences and flowers. The Pomona College football team specially sent their deepest sympathy to the relatives and to the college.

The service was very simple. The church was full, about 500 people being present. A male quartette sang and President Newlin of Whittier College and the minister of the church spoke. This morning the other colleges will hold special services in their chapel hours.

Several weeks ago "Mitch" of the Tufts-Look store went up to Talore Lake to hunt ducks on a visit to friends who had a house boat. Other implements they had were long, thin, shovel-like boats shaped like a toothpick that were used to weave in and out among the trees.

These are the real things, but treacherous, for the slightest movement will tip them over.

"Mitch" practiced in them three

Well the Lottier raced into its own again in great shape. That was a splendid contest, the car is a great car and Mulford is a driver of the right kind. Ralph de Palma, in the Mercer, made a run that was exciting, but of course we can celebrate the fact that an American-made car won the big event.

Frank Witt won the Tiedeman Trophy race yesterday. He received word of the victory early yesterday morning. The car shot over the Savannah course at a world record breaking clip and won the race worth watching according to the reports straight from the track-side.

That medium car event was also a race. Hughie Hughes in the Mercer, raced into first place. The little fat Englishman rolled away on his little racing beauty and was there every minute of the race. It was no Christy front wheel drive car that he had to handle, but a low built glider that fairly flew space to pieces on its rapid dash.

O. B. Henderson, the Baker Electric show yesterday. He will reserve his opinion of the exhibit until later, but judging from his anxiety to return and take a longer look the show is first-class and worth seeing. All the late models on display and the couples and victrolas will be on dress parade for some time.

Frank Carroll, the Goodrich tire man, has just discovered that he has a namesake. In addition to the discovery comes the peculiar stunt that his namesake is connected with the Good-year Tire people. The mail gets tangled once in a while, but the secrets of the tire man's life are not so easily never leaked out, at least so Carroll says.

Walter Hemenway is not the hope of the White Race, but of the automobile, and especially of the Stoddard-Dayton. He has challenges galore, but is biding his time and when opportunity offers will be ready either with his Parker "12" or his Stoddard-Dayton "12" for almost any kind of a match you would care to offer him. In the meantime, the Stoddard owner is taking portraits at the rate of about thirty sittings a day at the Hemenway studio and that will keep him pretty busy until Christmas.

Then look out for the smoke of his rifle or the dust of his Stoddard.

We are to have an automobile picnic. This is from no other of better source than Wild Bill Russ. He has

days until he thought he was proficient to work one, and so one morning he put on his Sunday best and lunch aboard and shot out among the trees for a day's hunt. He was standing up magnificently, proud of his skill in holding the best alone, until someone in the crowd on the boat house rolled at him and he half-turned his head to look back.

The next moment he struck the water with his shoulder and sank beneath the alkali waves as a great shout arose from the clubhouse. The water, but wait deep but as cold as ice, and he floundered around fifteen minutes in the slime before he recovered his gun and his shells. That kept him hunting for the day, but if you need any information about Talore Lake hunting boats, just ask "Mitch" for he knows.

Some Class.

POMONA WORTHY EASTERN FOES.

INTERSTATE MATCH WOULD BOOST GAME.

Showing of Sage Hens in Oxy Game Opens Eyes of Local Experts to Real Class of Greatest Southern California Exponent of Football Under New Rules.

All the southern football fans who saw the Por one team in action with the tigers, say that it is by far the greatest football aggregation ever developed in the south.

Not only are the southern followers of the game raving about the sage hens, but many of the eastern teams, who are here, now think the south is the goods.

Catch Pinal of Occidental says that the Pomona team could make any teams west of the Mississippi sit up and take a deal of notice and east of the big creek many of the teams would have to travel at a great rate to spill the beans for the Claremont eleven.

Pinal went further and said that he had not expected to see football in the Far West on the plan pulled off by Pomona, and he thinks they should arrange a game with some of the blazer institutions of the Middle West, just to show what is going on in the ranks of the Pacific Coast colleges.

This little line of talk is surely a boost for the western product. Pinal is a man who knows. He coached the University of South Dakota and has seen all the great football machines of the country at work.

Now it seems too bad that the Pomona team cannot frame up a post-season game with Utah or Denver, or played in this city some time during the first part of December. Knowing that the Pomona team would be a good drawing card, Manager Jones had almost arranged a game with the University of Utah, for the 6th of December, when the Pomona faculty sat on the idea and it died a quick death.

With the speed and knowledge of the American game, possessed by the Claremont aggregation, it is nearly a sure bet that they would come through in fine form in an interstate game, and give the football fans of the South a chance to see the good points in the American game, as it is played under the new rules.

However, if they can't do it this season, here is hoping for better luck next fall, but this is the year to do the

plans for a picnic that should be a hummer and even a Pope-Hennessy that. Contests with the rifle, in which Bill will hook up with Hemenway, races in which Bill will lose, boxing contests which Willie should win provided he does not choose Charles Cotton as an opponent and a few swimming matches. Well for my part I'll choose a dash, say about 440 yards and let it be open to all comers.

"Confederate States" Anthony, exclaims that the only way I can remember his initials, has a few stunts to pull off in the selling line. He is passing out those Regals in great shape and the handsome and stylish cars look better than ever. That undulating roadster is a beauty. In the meantime Roscoe Anthony is practicing for a few more races. Wish he had started in the Tiedeman trophy at Savannah. Yes, he'd have had a good show.

Harry Lord was the happiest man in town yesterday when he learned the result of the Tiedeman Trophy race at Savannah. That E. M. F. is a wonder and rushed into the limelight in splendid style. It is one of the fast little cars now in the racing game that must be reckoned with and reckoned with carefully.

Charles H. Bigelow leaves for Redlands this morning to be gone the remainder of the week. He has something under his hat that may surprise us soon. Not merely a good shock of hair, but brains that have counted before. He expects to pull off a stunt and if his plans are right he will turn the trick in good shape.

Harris Hanes has a wound in his leg you could lay your whole forearm in. It is a fierce cut, but the Mercer driver has a constitution like iron and will pull through. No amputation will be necessary. He is on the high road to a speedy recovery, and in spite of the reports that were sent out he is worth about 500 dead men. Hanes will never drive in a race again. That Phoenix track battle was his last and that race was as good as a victory, as it is a 100 to 1 shot that he would have beaten Swann and the National on that last lap.

Charles Hingsworth is pulling through all right. An abscess in his leg was opened and he seemed to gain strength at once. He is badly battered and has lost his right arm, but the boy is plucky and is looking on the bright side of everything. He will be out of the hospital in just a short time, but the time will not be so short but what it will seem almost a lifetime to the man who enjoys the open desert so much.

Speaking of Rugby and American football, in the game with Occidental, Pomona used a little of everything, from old-style line plunging football to soccer. The backs were running wide and passing the ball like the Rugby "vase" in the open field work. In the kicking department of the game, the big foot was much in evidence. In fact, the game this season, as played by Pomona, is wide open, and if the fans cannot understand it, they need some dope for sore brains.

WOULD CHANGE RULES TO AID IN SCORING.

BY A. P. NIGHT WIRE TO THE TIMES. NEW YORK, Nov. 27.—Football experts at the college clubs here, their number including several of the official rule-makers, are pretty well agreed that some radical changes in the rules will be needed before next season. The chief clamor for reform is a demand for plays which will allow more scoring.

Possibly this relief will be found by returning to a 5-yard gain for first down inside the 25-yard line, by increasing the number of downs allowed to gain 10 yards to four, or by allowing first down after a seven instead of a 10-yard gain.

Saturday's games at Cambridge and Philadelphia show the inefficiency of the new rules. The Army-Navy game showed little football except kicking. Dalton's toe carried the day. Yale and Harvard dabbled with all the wrinkles of the new game, but had to resort to kicking. This constant punting becomes very monotonous to the spectators. It has entirely changed the complexion of American football. The punt was originally put into the game, not as a feature play, but as a last resort when the ball could be carried no farther. Under the present rules the kick is the main thing and the game becomes a kicking contest between two men with the chance of picking up a fumble the chief reliance of touchdowns.

Touchdowns, it is pointed out, are more satisfactory than field goals; they are what the players and spectators would rather see. They represent more football skill, more team skill and more actual football ability. What is wanted and what all the colleges will demand of the rule-makers this winter is a game which will not further increase the risk of injuries, but which will best some degree of finality in advancing the ball.

ROOTERS MAKING PREPARATION.

From all accounts the rooting section of the Los Angeles High School is going to be one of the best ever seen in the history of the school. Extensive preparations have been made by the enthusiastic students for their own pleasure and the entertainment of the crowd. Although all the details are not definitely settled it is rumored that a big black L. A. will be formed by the men wearing the colors showing white on a blue field. Confetti and streamers will probably be in evidence also, and with L. A. High School band the crowd should be kept interested.

The rooting of the boys this year has been a big improvement over any previous year, and the credit mainly belongs to McFadden, the yell leader. Few if any college men have it on him for enthusiastic spirit and the rooters cannot help but howl when he gets on the boards.

Mr. Wad Thought That He Was Some Pumpkins Down at Freddie Welsh's Training Camp!

DE WITT VAN COURT'S COLUMN.

Freddie Welsh entertained a large crowd at Venice yesterday afternoon, and won two rounds each with Louis Joe Rivers, George Kirkwood and Charlie Dalton. The bout between Freddie and Joe Rivers was full of the clumsy stuff, and the crowd just being very friendly towards the other, gave the crowd just what they wanted. Freddie was in a boxing line, and did not extend himself with the crowd of the boys. Charlie Dalton, a couple of funny stunts, amused the crowd. Freddie is a better catch day and it is safe to say that he will enter the ring in competition on Thursday afternoon. Rivers came very near not making up for his bout with Freddie. As Rivers, Levy and Rooney, a machine, got outside of the ring, a motorcycle policeman, in making up the machine and then to stop. Willie Rooney, who was riding on that side of the machine, called to Joe to stop, and he quickly took the machine to the cop that the policeman was not working, and Willie Rooney, who has been named "Clay-Pipe Mike," by the crowd, but in to square was promptly told by the policeman to stop, as he was talking to

vention Hall, Kansas City, and the officials of the Missouri Athletic Club this afternoon, called the English champion an offer for a match on December 23, winner to receive 75 per cent of the purse. Gotch, in a letter today, offered to meet Munroe at any time before January 5, before he starts on his trip to Europe. "I expect to leave America January 10," Gotch wrote. "I'll insist that the winner must receive 75 per cent of the purse. Munroe has indicated that he can command backing for a good-sized bet and I will hold him on that also. I won't meet Munroe in England. If he wants his match he must come to America. I will prefer to have the match the last week in December. If this match is arranged, it will be the last championship bout for a year, and perhaps forever. I will engage only in exhibition matches while abroad." Following the receipt of the letter, officials of the club called Munroe the offer, fixing the date for December 23. In a recent letter Munroe stated that he would pay his own expenses to come to America for a match with Gotch, and that the latter might name the terms.

BEST BOXING IS NOW FOUND IN CANADA.

BY MARQUIS OF QUEENSBERRY. (Copyright, 1911, by the Marquis of Queensberry.) WHEN I was in Toronto last week the Toronto Bowling Club, presided over by the genial Mr. Ryan, kindly invited me to a little informal gathering to meet some of the sporting men of Toronto, among whom was Tom Flanagan, Jack Johnson's trainer in his last big fight at Reno. I was surprised to find such a big light in the boxing world as Flanagan is in Toronto, but he told me flatly that Canada at the present moment was far and away the best place on the American continent for boxing lovers. Flanagan tells me that he will make his home in Toronto. He has organized and is carrying on a well-conducted boxing club. He also told me that there was no difficulty at all in staging any good boxing bout, and that he had a splendid sporting public to enter to in the Canadian, backed up by sportsmen from such places as Buffalo and Detroit, which are only a few hours' distance from Ontario's capital. Flanagan invited me to attend a boxing tourney the first week in December, and if my duties here will permit I hope to be able to go. He promised me that he would give some of the Chicago boys a chance, as I told him that we had plenty of young and as yet unknown talent here, and I am sure that both the McCormick and Gilmore schools could turn out some fine young exponents of the manly art. It seems really too bad that boxing should be altogether prohibited in Chicago. I should have thought no one could take really serious objection to exhibition bouts. It was one of my father's great ideas that in addition to the ordinary prize-ring

AMONG EASTERN RAH-RAHS.

THE ATHLETIC ASSOCIATION of Michigan rewarded the second team players for the season's work by taking them to Ithaca to watch the Cornell game. The average age of students at the University of Nebraska is 24 years. One of the men worked on farms most years after graduating from the school before entering the university. More than 16,000 Rugby clubs are now full schedules in England this year. Baseball pitching is popular among the students at Kansas University. Intercollegiate matches are to be arranged. Freshmen at Brown University are an official class pipe. The fraternities at Wisconsin have been prohibited by the faculty from using freshmen. The rule will become effective next year. Presidents of forty colleges are Yale students. In a recent election of the freshman class at Wisconsin, voters were taken in the polls in autos.

PORTERVILLE MAY PLAY HERE.

PORTERVILLE, Nov. 27.—Efforts are being made by the Rugby team of the Porterville Union High School to have the final game of the Central California Amateur Athletic League, which has been scheduled for Tulare, Thanksgiving Day, played in this city. Information has come from Tulare that they cannot guarantee more than a 50 per cent attendance to this city, as Rugby does not appear to be popular in the dairy town. Superintendent Conger of the high school, who is also the manager of the team, and Student Manager Ray Scruggs, have wired to the Tulare management that they can guarantee them a 100 per cent for the day. Porterville's team has not been beaten yet this season, and the chances for winning the pennant of the C.C.A.A. League are very bright. A large crowd is anticipated for the contest, which if it is played in this city, will be on the municipal athletic field.

FAST ROUNDS. (Continued from First Page.)

The fallings with an effort Welsh was surely jabbing and jabbing hard, but fighters do not knock a sparring partner to the floor three times in one round. It looked as though Fred could not help it, as every time he hit out with any snap, Dalton hit the floor with the same degree of snap. We all know Fred is good, but the inner circle does not need to be told to stalk horses to convince the public of the fact. Welsh did not let up at all yesterday on the boxing end of his training after the hard day put in Sunday. He boxed eleven rounds, two with Joe Rivers, two with Louis Reese, four with Dalton, and three with George Kirkwood. All the clam was rolled up in the first engagement with Rivers. Little Joe received a warm reception when he entered the ring, and this so stirred Megaphone Cook that he entered the realms of oratory. He started out with a flowery speech about Joe belonging to Los Angeles, one of the home products you know, and then took a little flyer at Joe Levy, but was called to earth when Dick Wheeler called his attention to the fact that Fred was shivering while waiting for the flow of language to stop. Finally the men got started and

Freddie began to do some of the fast clever stuff, but found that Joe was almost there himself with the pretty ducks and shifts. Then Fred reached in and slammed Joe one on the dome and in turn received a warm poke in the chin. The two rounds were fast and furious, and Rivers never boxed better in his life. Some day before long this little man will be roaring through the lightweight division—that is, if he keeps on boxing as he did yesterday. After Rivers, Louis Reese was sent through the ropes, and Fred punched him at will; all his speed showing to a great advantage. After two rounds of this mauling, Dalton was sent in and began hitting his head in front of Welsh's gloves. When a man does this Fred is not the fellow to quit, so he began slamming the kid's map all over the place. In the last round, Welsh reached Dalton with some short arm jabs and Dalton went to the floor on three occasions, though it would not have killed him to stand up. George Kirkwood came to the front now, and was punched nicely for three spams. With the conclusion of the boxing, the party adjourned to the training quarters. Here the talk became general, every subject from the election to the fight, coming in for its share of the chin music. Freddie called the attention of the crowd to a letter received from his father in which that good lady told him just how to win from the champ. Mrs. Welsh must have been posted, for she was all to the good about the crouch et al. and told her boy to be in the best of shape for the world, as it meant fame in the area of the world. Ad Wolgast took things easy at Vernon yesterday. Outside of the old round of handball, etc., he boxed but three rounds. The most stuff was with young Jim Giblin. Tom Jones's promising lightweight. The boys went over the route hammer and tongs and both looked rather messy when Jones yanked the rope in for the final round. Ad is spending most of his time at the present reading of the minutes in fast work at long range, trying for speed and hitting ability while standing away. He has followed this plan ever since the training campaign started and it looks as though he thought Welsh was worth a second thought after all. Wolgast looks ready for the ring at this time, and now on will not do any heavy work. Today he will only box a few light fast rounds and do some shadow work. Welsh will have one more hard day before ending up. Today he will spar with Joe Rivers through about four rounds, and then take on the rest of his crew. "Nothing to it, nothing to it," said Baron Long, manager of Fred Welsh, yesterday, on Spring street. "We have the fight won already and the little matter Thursday at Vernon will be just a ratification meeting." Long made his way slowly from one end of Spring street to the other, talking Welsh long and loud, and in the afternoon of the same day the stock of Welsh went high.

M.A. Gunst & Co., Distributors FOOTBALL VICTORIES UP TO HIGH BROWS. (BY A. P. NIGHT WIRE TO THE TIMES.) BOSTON, Nov. 27.—A week ago football experts here declared that under a strict interpretation of the rules, Princeton's victory over Yale was illegal. Today the critics on similar grounds are wondering if after all Harvard did not beat Yale last Saturday. They base their claims for a Harvard victory on rule 6, section 9, which would seem to indicate that an incomplete forward pass made by Camp from behind Yale's goal line constituted a safety and should have scored Harvard two points. DECISION FOR SCHWARTZ. MEMPHIS (Tenn.) Nov. 27.—(Exclusive Dispatch.) Yankee Schwartz, the globe-trotter, obtained an early lead over Frankie White of Chicago in their eight-round bout before the Southern A. C. tonight, and was awarded the decision, much against the protests of White's followers, who claimed that their man should have been voted a draw, at least. GOTCH READY TO MEET MUNROE BEFORE XMAS.

(BY A. P. NIGHT WIRE TO THE TIMES.) KANSAS CITY, Nov. 27.—Frank Gotch has offered to meet Alexander Munroe, the English wrestler, in Con-

Hughie Hughes and the Mercer. This is the fastest car which won the medium car event yesterday on the course over which the Grand Prize race is to be conducted Thanksgiving Day.

FACTS. FEATURES AND FANCIES FOR WOMEN AND MEN OLIVE GRAY

BEAUTY HINT: Too much stress cannot be laid upon the importance of pure air, both for health and for the complexion. Although it may be too radical for you to at once adopt, the plan of having a draught through your sleeping apartment, it is undoubtedly a way to sleep. With a full circulation of air around you, during the night, you will breathe more fully and will find, upon awakening, you are more completely rested and refreshed by a few hours of sleep than by much more time given to sleep without such perfect ventilation.

Emergency which confronts the woman is so imperative that, on December 1st, it would be like to suggest that she make a general holiday and in the bank holiday and in the women may have ample time to vote, upon this occasion when it has been proved a hardship, and it will be to exercise this right like to see the public stores closed, on election day of the public school women and many of the women have a large army of employees.

These all vote before going to work, which would in some cases prove a hardship, and it will be to exercise this right like to see the public stores closed, on election day of the public school women and many of the women have a large army of employees.

I have often thought that a good thing if we could have a day to ourselves, a kind of a holiday season.

It is a sort of extraneous holiday—a kind of a holiday from the real winter holiday. It seems to me no one is ready for it and that it is of great significance as if it were attached to a holiday.

As we cannot instantly change along to the great time, let us regard it as a holiday, by making it an extra day to the house. Make a gift to the house. Make a gift to the house. Make a gift to the house.

It is in line with this, why the practical gift of a gift? It is in line with this, why the practical gift of a gift? It is in line with this, why the practical gift of a gift?

It is more tempting, in my opinion, to have a gift of a gift. It is more tempting, in my opinion, to have a gift of a gift.

What is more characteristic of the Scotch people is that they are a people of the flowers. I saw in one of the big stores of this city, in the shades of yellow and red, a gift of a gift.

Flowers. It is a surprise to me, when I see the flowers which are given as a gift. I saw in one of the big stores of this city, in the shades of yellow and red, a gift of a gift.

What a man can make. It is a young man growing up, who will certainly tell you that he needs a gift. It is a young man growing up, who will certainly tell you that he needs a gift.

What a man can make. It is a young man growing up, who will certainly tell you that he needs a gift. It is a young man growing up, who will certainly tell you that he needs a gift.

try to find a whole evening to give to pure neighborliness—whereas the half hour after dinner, is by common consent, a time of relaxation. Her plan is so popular that "after dinner coffee" is becoming a fad in her neighborhood; and is voted by all to be a charming form of entertainment.

Fashion Whispers.
White hats are increasing in popularity. The long fur coat is still very important. Paradise is a favorite millinery trimming. In neckwear Irish lace still holds ascendancy. Trains to evening gowns are being made square. One-sided treatment is the striking point in French gowns. The combination of black and white is much in favor again. The lavish use of fringe is a dominant note of smart gowns. Bangs are again much worn, but puffs have entirely gone by. The fichu is one of the most insistent recurrences in all kinds of dress. The craze for the Tam o'Shanter is growing apace with the oncoming of winter. Many of the most attractive head-dresses are emphasized by a touch of jet.

GOOD CHEER SOCIETY.
Branch of National Organization for Helping Friendless and Needy Girls to Be Established in This City. With friendship for its foundation and cheerfulness as its chief asset, Miss Theora Carter, president and founder of the Society of Good Cheer, with headquarters in New York City, is in this city for the purpose of organizing a branch of the society here. Their motto is "Not charity—please—but goodfellowship."

The society is composed of young women only, and their objects are to inspire confidence in one's self, to meet the lonely, penniless, convalescent and extend the hand of fellowship and aid by giving words of counsel and cheer, to meet the stranger and render assistance in every manner possible. The society does not solicit alms nor give charity, but plans are under way for the establishment of a convalescing hospital somewhere on the Pacific Coast where young working girls and women may have a home and friends after a siege of illness.

Easy Hospitality.
A hospitable hostess has found a way of entertaining her friends, with little or none of the hard work and "fussing" which is found so burdensome to those who live, as do so many in California, without regular servants. She invites her friends to after dinner coffee. The clear liquid is served upon small trays, in the library where an hour's pleasant and informal chat is indulged in before it is time to go to whatever evening's entertainment is on hand. Thus the burdens are eased all around. It is often a burden in these busy times to

SOCIALISM IS NOT CHRISTIAN.

Strong and Convincing Address by Clergyman.

Dean of St. Paul's Goes to Root of Things.

Appeal to the People to Not Be Deceived.

In St. Paul's Pro-Cathedral last Sunday morning the dean, Rev. Dr. William McCormack, preached a sermon thoroughly well reasoned out and most timely in its application to the subject, "Christianity is Not Socialism."

The thoughtful preacher took for his text a part of the verse, Matthew 17: "I came not to destroy, but to fulfill." It is a pleasure for us and we prove it to our readers to present to them the following excerpts from this eloquent discourse.

Dr. McCormack, among other things, said:

"No one will dispute the truth of the assertion that this community is divided at this particular time as it has seldom been divided before."

"Whatever may be the issue of the great struggle which will be settled next month, the present controversy has compelled the people to think. They have been forced to go to the root of the matter and examine for themselves what socialism really is. Therefore many people have avowed themselves socialists who would have found it very difficult to give a substantial reason for the faith that is in them. If the campaign that is now on does nothing else, it forces us to think."

"Most of you are familiar with the statement made with dogmatic emphasis so that we can not mistake it, that the Christ was the first socialist. The more we know of it, the more I turn in my mind, the more I compare it with what Christ did and said, the more I am driven to the conclusion that he was just as far away from socialism as the one pole is from the other."

"I take from the International Encyclopedia, published in 1905, the following brief definitions defining socialism:

"The first constituent element of socialism may be stated to be the substitution of collective property in the great material instruments of production in the place of private property. Socialism demands collective management of such industry, and it demands that all the industries shall be associated together in order thereby to secure perfect system and unity of effort. Socialism means the distribution of income by some common authority. If organized society is to secure perfect system and unity of effort, the product of industry in the first instance falls to society."

"These statements mean that the supreme thing in life is environment. If we can make environment what it ought to be, then the other problems of life will take care of themselves. Change the environment and you change the man."

"It is on this fundamental point that the Gospel of Jesus Christ differs from the socialistic doctrine of social and economic betterment of our day. It Jesus had any distinctive message to mankind it was that the source of evil is inside the heart of the individual, that if you fail to touch the heart whence proceed evil thoughts you must fail to change men in any permanent way."

"During His life on earth, we are told that a man came to Jesus and said: 'Master, bid my brother divide the inheritance with me.' What was His answer? 'Man, who made me a judge or divider over you? Take heed, and keep yourself from covetousness.' The emphasis everywhere, in all the Gospels, is put on the supreme fact that you must touch the heart of man to change, to improve his condition."

"If there was one class of men who appealed to the compassion of Jesus Christ, it was the poor. If there was one sin He condemned more than another it was injustice. But He believed all He contended for could and would be brought about, not by the environment but by a radical change in the heart of man."

"It is not too much to call 'The Sermon on the Mount' the 'Magna Charta of the Kingdom.' Where is the emphasis put in this as to working out human betterment? Is not His message directed to the heart? No man and no nation can be rightly called the Christ as his leader when His fundamental teachings are honored by them 'in the breach rather than in the observance.'"

"The Bishop of London recently, when addressing thousands of working men of England, said that to reach the root of the trouble of the day there is only one way: 'You must make men unselfish, and there is only one thing that will make them unselfish, that is the Gospel of Jesus Christ.' No regulation of production will do this. The ownership of public utilities by government will not do this. No method of distribution will do this."

"After all, there is nothing new in their problem. They have existed ever since the birth of civilization. In early ages it was egoism, and out of that grew tyranny, and out of tyranny came the despot. In our days the pendulum has swung over to the other extreme, to what is called socialism. Many think that if socialism were to prevail, all our troubles would end. I do not think so. What I am waiting for is a philosophy that will strike a balance between egoism and socialism. I think it will come with what Bishop Nichols of the diocese of California has called the philosophy of filialism, and that is based on the words of St. John, where he says: 'Now we are the sons of God.'"

"Friends, let us hold on to that thought. It will drive out prejudices. It will sweeten everything around us. It will do away with class hatred and create concord which will unite us in place of discord which separates us."

Voting Instructions.

A meeting has been called for Wednesday afternoon by the Women's Progressive League of Precinct No. 5 at the home of Mrs. E. T. Quintin, No. 4464 Mulholland avenue. There will be several workers of the league in attendance to give instructions on voting.

MULHOLLAND TELLS OF AQUEDUCT SITUATION.

TRUTHS about the aqueduct were told the Women's City Club at its luncheon at the Westminster Hotel yesterday noon. Six hundred women packed the large dining-room and heard them and applauded the witty presentation by William Mulholland, chief engineer of the Los Angeles aqueduct.

In introducing Mulholland, Mrs. A. S. Lohmeyer, the president, said he is "not a talker, but a doer." Before Mulholland ended the women voted him both.

Mulholland said he was not going to make a political talk except to say that the facts about the aqueduct have been "misrepresented and distorted by its enemies" and he thought it proper to correct some of the mistaken ideas that have gained ground.

"It seems strange that men who have never seen the aqueduct and know nothing about it are being believed by some persons in preference to the official facts," he said. "In constructing it, and some of them have been in public employment for thirty years," said Mulholland. "It appears strange that in every annual report and by every other means of publicity the true facts about it are exposed and the people ought to be better informed. I do not want to be rude and say it is due to their ignorance, but it is certainly a lack of knowledge."

Here are some of the Mulholland truths:

"Eighty per cent. of the work has been completed for \$9 per cent. of the money. This is the fact of the asseverations of one who fought it at the beginning and is still opposing it, that it will take twice the estimated amount. The cost of the aqueduct will be built within 20 per cent. of the money."

"No one knows who will get the surplus water when it is distributed. It belongs to you, your husbands and your sweethearts and not one drop will pass from you until you so decide. The distribution has been studied. The areas that are languishing for water have been investigated and recommended, there is still deep thought on the problem, but no one, that I have ever heard of, has been able to say where it will go."

WATER DISTRIBUTION.

"The distribution of water is a business proposition for the city. Some say it must not be sold to the San Fernando Valley because a syndicate owns a lot of the land. Well, if you sell it to Calhoun or the Redondo region, you will find that the land there is owned by somebody. In fact, anywhere you put it someone owns the land. It is not a question of land ownership, but of business. And every acre that gets it must pay for it. Not a drop will be given away; not one drop should be given away. I am now an optimist about Los Angeles; but not long ago I was a pessimist. I believed the growth would stop and we would have a chance to catch up in the way of water. But we are growing more than ever. We require an increase of 250 miles' inches each year in our supply."

"I have seen photographs of a great dam that is building and of a mysterious conduit that is to lead to some unknown place and much mystery is made over the whole thing. The dams are for the San Fernando reservoirs always in mind as a part of the plan, always placed in the whole scheme and always discussed in the official documents and in public meetings. The conduit is one to connect the reservoirs under an embankment, has no sinister purpose and is on land owned wholly by the city for reservation for the past three and a half years."

"They say too, that we have paid more in freight profit to the railroads than our freight has amounted to; that we do not need the water, and that if we do need it it is bad water. Before we decided on the Owens Valley source, we had two other water sources, one from the river; one was analyzed by the State and the other by the United States government and all analyses proved the same quality of the water."

"The lecture was illustrated by lantern slides showing the work on the great project. Incidentally Mulholland instanced how the tongue of calumny is always wagging against great things. He said a man who pretends to know had written to the bond syndicate that finances the work saying that a break in the intake gate of the big ditch had cost the city \$150,000."

"The fact is it took \$110 to construct the damaged portion and when the repairs were completed they cost \$150. I have seen a man who pretends to know his facts, and when I get it I will post it in some public place with his signature attached," said he.

Here They Are.

LOOK AT THE CANDIDATES ON THE SOCIALIST TICKET.

DAILY inquiries of The Times as to the identity of the candidates on the Socialist ticket for municipal offices in the coming Los Angeles election, are best answered by the record and personality of each one, found below. Many voters in honest doubt as to the fitness of the men placed on the Socialist ticket. They may judge for themselves, after reading the list, whether they want the government of Los Angeles and control of its great projects placed in the hands of such unprepared and unsuitable men:

Job Harriman, candidate for Mayor or attorney; 50 years of age; moved to city from San Gabriel in July to acquire citizenship; was nominated while still a resident of San Gabriel; attorney for the McNamara; pays city taxes on \$250—office furniture and library; perennial candidate for something; never elected.

CANDIDATES FOR COUNCIL.

C. F. Grow, machinist; labor-union agitator; spent five months in jail for assault on non-union workman; is not on city tax rolls.

Alexander Kane, mill hand, lives at San Pedro; not on city tax rolls.

Costly.

CHEAT TAXPAYER FOR HIGH BIDS.

HOW MILWAUKEE SOCIALISTS BASE THEIR BOND SALES.

Offered Municipal Bonds at Higher Interest Rates, Thus Inviting More Bidders and Higher Prices, but at Great Cost to Municipal Treasury.

In a personal letter received by A. Robert Elmore, local representative of the N. W. Halsey Company bond house, from the manager of one of the largest financial institutions in Milwaukee, it is made clear why the socialists are able to claim that more bidders for municipal bonds, offering larger premiums, are now appearing than was formerly the case.

It seems that under the old regime Milwaukee municipal bonds carrying

lone the great electrical energy the full quantity of water will produce? If we only supply our own needs from year to year there will be no surplus to distribute and what we need is not enough to run the great power turbines.

Therefore it is wise to bring all the water here in order to produce power and sell the surplus water to the buyers help reimburse the people for the great outlay for the aqueduct. Where this surplus is to go is not decided, and will not be until the people decide it.

WHY SAN FERNANDO ROUTE.

"But there is a loud wail because the aqueduct stops at the head of the San Fernando Valley or that it comes by way of the valley. Well, we couldn't bring it in by way of Catalina and San Pedro, nor by way of San Bernardino—and we had no other way but the San Fernando. It is the nearest to the city. The fact is, the stop there (and Mulholland pointed to a spot on the big map displayed to the audience) but that is not the end of the water. What thing you see coming down is the route of the conduit the Public Service Commission is ready to build to bring the water to the city."

"It is said we have no right of way. We have every inch of this right. It traverses private ground only a little way and the rest of the way it uses public roads and streets. Its size is undetermined because no one knows how much water it is to carry. If we are to distribute water over Calhoun it will be larger, and if we are to distribute it over the Redondo region it will be larger still. But it will be ample for all city for purposes for decades to come at any rate and it is being brought down the west side of the city because of the growth of the city is to the west."

"I have seen photographs of a great dam that is building and of a mysterious conduit that is to lead to some unknown place and much mystery is made over the whole thing. The dams are for the San Fernando reservoirs always in mind as a part of the plan, always placed in the whole scheme and always discussed in the official documents and in public meetings. The conduit is one to connect the reservoirs under an embankment, has no sinister purpose and is on land owned wholly by the city for reservation for the past three and a half years."

Halsey Company bond house, from the manager of one of the largest financial institutions in Milwaukee, it is made clear why the socialists are able to claim that more bidders for municipal bonds, offering larger premiums, are now appearing than was formerly the case.

It seems that under the old regime Milwaukee municipal bonds carrying

lone the great electrical energy the full quantity of water will produce? If we only supply our own needs from year to year there will be no surplus to distribute and what we need is not enough to run the great power turbines.

Therefore it is wise to bring all the water here in order to produce power and sell the surplus water to the buyers help reimburse the people for the great outlay for the aqueduct. Where this surplus is to go is not decided, and will not be until the people decide it.

WHY SAN FERNANDO ROUTE.

"But there is a loud wail because the aqueduct stops at the head of the San Fernando Valley or that it comes by way of the valley. Well, we couldn't bring it in by way of Catalina and San Pedro, nor by way of San Bernardino—and we had no other way but the San Fernando. It is the nearest to the city. The fact is, the stop there (and Mulholland pointed to a spot on the big map displayed to the audience) but that is not the end of the water. What thing you see coming down is the route of the conduit the Public Service Commission is ready to build to bring the water to the city."

"It is said we have no right of way. We have every inch of this right. It traverses private ground only a little way and the rest of the way it uses public roads and streets. Its size is undetermined because no one knows how much water it is to carry. If we are to distribute water over Calhoun it will be larger, and if we are to distribute it over the Redondo region it will be larger still. But it will be ample for all city for purposes for decades to come at any rate and it is being brought down the west side of the city because of the growth of the city is to the west."

"I have seen photographs of a great dam that is building and of a mysterious conduit that is to lead to some unknown place and much mystery is made over the whole thing. The dams are for the San Fernando reservoirs always in mind as a part of the plan, always placed in the whole scheme and always discussed in the official documents and in public meetings. The conduit is one to connect the reservoirs under an embankment, has no sinister purpose and is on land owned wholly by the city for reservation for the past three and a half years."

CITATIONS END, WARRANTS BEGIN.

Last Batch of Fraudulent Registrations Summoned.

Evidence of Fraud Given to District Attorney.

Uncle Sam Looking Into Il-legal Naturalization.

Final citations of persons believed to have been illegally registered were sent out yesterday by the City Council and no more will be sent. Altogether about 2400 have been placed in the mails, which responses are to be made Friday and Saturday of this week, and Monday of next week. But it is estimated that, had time permitted, 6000 could have been found justifying citation after proper investigation.

There are no more citations to be sent out due to the fact that the law requires seven days notice to those cited and this period expires next Monday, which is the day before election.

Sixty citations were sent yesterday, and of this number forty-eight are alleged to have been registered from one lodging-house. The east side. They were not verified by the proprietor's list of guests eligible to vote. This is about the strongest showing of the criminal attempt to put fictitious names on the register for voting purposes at the election next Tuesday.

Among the citations were some against landlords, who had not reported correct lists. Altogether the names affected by the citations sent out will aggregate more than 2000, so that this may be the amount the registers will be purged of. All other cases will not be investigated will be marked disputable on the great register, so that the election officers will have notice. In addition all the names questioned will be challenged, if their names have not been expurgated.

But though the citations have ended the investigation has not and in place of citations criminal warrants will be issued. Yesterday detectives working under S. L. Browne, chief of the Secret Service of the District Attorney's office, reported evidence in ten cases which seem to be completely criminal. In addition there is abundant evidence in Browne's possession, which he has given to Deputy District Attorney Hanna, justifying the issuance of several hundred warrants for illegal voting and these warrants are expected to be issued before the week is over. They are to be placed in the hands of officers, stationed at the polling places, and which an illegal voter appears he is to be arrested.

Browne has about sixty men under him sifting the cases found by an examination of the registers and the lodging-house lists, and these men are making personal inspections and accumulating testimony about the cases to sustain prosecution.

Frederick Jones, Naturalization Inspector for the United States government stationed here, has asked County Clerk Leland to send him information about any fraudulent cases of naturalization for presentation to the Federal authorities. It is a crime for a person to represent that he is naturalized when he is not. Many of the cases under investigation involve alien citizenship, but the diverse places where it is represented citizenship was acquired locally prevent an investigation before the election.

Women Plan a Big Meeting.

WESTLAKE CHURCH TO BE USED NEXT FRIDAY NIGHT.

Programme Will Include Many Good Speakers and It Is Expected All Women of the Region Will Attend—Precinct Work Is Being Advanced—Flags to Decorate.

One of the largest meetings in the campaign to re-elect Mayor Alexander yet arranged by the Women's Progressive League will be held at the Westlake Methodist Church at Eighth and Burlington streets Friday night at 8 o'clock. Mrs. Mabel Kline, assisted by Mrs. McCann, Mrs. Edgar German, Horace G. Hamilton and Clarence Taggart, is preparing the programme. Among the speakers will be Mrs. Craig, E. B. Drake and Frank Tyrrell. Mrs. German will preside.

A voters' school under the management of the Women's Progressive League is also to be established in the church at Eighth and Burlington and will be open after this morning at 10 o'clock.

Miss Lillian Brady has been placed in charge of the work to prepare precinct books for each captain and each checker for use on election day. These books contain the complete registration lists for each precinct arranged in alphabetical order. Some precincts are divided into two and some into three divisions and in such instances extra books are made. This work is requiring the services of thirty clerks and stenographers. Their work is effectively under way and the books are being supplied at least three days in advance of the election.

Five hundred dozen flags of one size were delivered yesterday at the Westlake headquarters. They are about a foot long and are for the decoration of homes, trucks and automobiles. These will be available Wednesday and be for distribution on Flag Day, which is next Saturday. Everybody is invited to participate in this big flag celebration.

Mrs. Robert F. Jones has opened a school for voters for precinct 145 at No. 727 Downey avenue from 2 to 4 p.m. and from 7 to 9 p.m., December 3 and 4. From now until December 1, Mrs. Martha Perry and Mrs. P. T. Arnold will instruct voters in Rovie Heights at the Alexander headquarters, No. 7131 First street.

In precinct 41, Mrs. Carrie S. Greene will explain the method of

voting at any time in her home at No. 1447 West Temple street. She has a fine programme to offer those who attend the precinct meeting there tomorrow afternoon.

Here are the meetings arranged for today:

Precinct 147, 8 p.m., Mrs. Clara Paul's home, No. 1413 Girard street, Mrs. J. C. Delant, chairman.

Precinct 21, 2:30 p.m., Mrs. Anna C. Gordon's home, No. 601 Virgil street, Mrs. L. A. Gould, speaker.

Precinct 164, 2:30 p.m., Mrs. Frank Lechler, No. 1521 Vermont avenue.

Precinct 63, Mrs. Lewis P. Works, No. 668 Westlake avenue, Mrs. Craig, speaker, 8 p.m.

Precinct 1, 2 to 4 p.m., Mrs. W. E. D. Partridge, No. 6431 Eagle Rock avenue.

Precinct 66, Rampart apartments, Sixth and Rampart streets, 2 p.m., Mrs. Nanno Woods, speaker. The Woman's Progressive League will conduct a school for voters under the charge of Mrs. Jessie Reynolds.

Precinct 144, at the residence of Mrs. C. R. Baxter, at No. 1692 Church avenue, Mrs. R. L. Craig, speaker, 2 p.m.

Precinct 173, at the residence of Mrs. George Heath at No. 3115 West Twenty-eighth street, Mrs. Edgar German, speaker, 2:30 p.m.

Precinct 74, at the building of the Collins Feed Company, Stephenson and Euclid avenue, Mrs. Ada G. Smith in charge of a school for voters, 2:30 p.m.

Precinct 188, at the residence of Mrs. K. C. Nixon at No. 1229 West Twenty-third street, Mrs. C. P. Roos, chairman. There will be a speaker from the Woman's Progressive League and a school for voters.

Precinct 42, at the residence of Mrs. C. Eddy at No. 455 Oro street, 2 p.m., Mrs. Carrie S. Greene from the Woman's Progressive League will give precinct and voting instructions.

Precinct 53, at the home of Ernest Oliver at No. 343 South Bunker Hill avenue, 8 p.m., Mrs. Elmer E. Gardner, chairman. Voting instructions.

Big tent at Central avenue and West Forty-seventh street. Mrs. Lou V. Chapin and other Good Government speakers, 8 p.m.

Uniting.

FRENCH VOTERS FOR ALEXANDER.

ORGANIZE BIG CLUB TO WORK FOR HIS ELECTION.

Stand for Law and Order and the Good Name of the City—Include Most Prominent Men of Race in the City—Will Co-operate With the Citizens' Committee.

A fourth club of foreign-born citizens of Los Angeles to aid the Citizens' Committee in its effort to re-elect Mayor Alexander and the whole ticket, was formed yesterday among the French residents. The members of the tri-color joined their Spanish, German and Italian brethren behind the Stars and Stripes in defense of Los Angeles against the aggression of socialism.

The organization includes most of the French citizens and has for its officers some of the most successful business men in the city. Notice of the organization was filed with Chairman Lee of the Citizens' Committee yesterday, as follows:

The undersigned voters take pleasure in advising you that we have organized a French-American Alexander Club, and we do hereby pledge our support and efforts to the Citizens' Committee to assist in the election of George Alexander for Mayor, and do further pledge our loyalty toward the maintenance of law and order and the good name of our city.

[Signed] Lucien N. Brunawig, president; Dr. H. F. Fuesant, vice-president; Jules Viale, vice-president; John Castner, treasurer; Frank A. Bouelle, secretary; Emil Christopher, assistant secretary; D. D. Cave, M. F. Amestoy, Dr. Leon Roth, Executive Committee.

Sample Ballots Mailed.

Two hundred thousand letters were placed in the mails yesterday and last night by the City Clerk. They contain the sample ballots and other election information authorized by the charter and are to reach every voter in the city before the election. Each is in a separate envelope and has the return card of the City Clerk on it. Under the postal laws no one can receive such mail except the person addressed, and every hotel or lodging-house keeper is obliged to return the unclaimed letters to the postal authorities at the end of the period indicated on the outside by the clerk.

Kleinberger Entertains.

Victor G. Kleinberger, district manager for precincts Nos. 148, 149, 170, 171, 172, 173, 174, 175, 176, 177, will give a luncheon Tuesday at 12:30 at the Van Nuys Cafe for his precinct captains, including Messrs. H. Schultz, Ed. D. Lyman, W. L. Jones, John M. York, Nat. Wilshire, Fred L. Hunt, Charles Connell, Blake E. Gregory, Tobey Newman and Percy Thompson. Management of the campaign election day will be discussed, ways and means considered to get out the vote and methods reviewed for doing effective field work.

Precinct Meeting.

A precinct meeting of great importance to persons residing in precinct No. 181 is called for tomorrow evening at Arlington and Jefferson streets. The district named is strongly socialistic and every effort is being made to insure that its full Alexander strength shall be polled next Tuesday. Among the speakers will be Clarence Taggart and John P. Tucker.

Precinct Meetings.

Evening meetings of the Good Government precinct workers have been called as follows for tonight: No. 128, No. 1118 South Hoover No. 46, No. 428 Custer avenue; No. 146, No. 1615 Madison street; No. 101, No. 1171 East Tenth; No. 74, No. 3008 Stephenson avenue. Afternoon meetings are as follows: No. 168, No. 1320 West Twenty-third street; No. 64, No. 322 South Figueroa; No. 94, No. 359 West-

Soda crackers are extremely sensitive to moisture.

Before the advent of Uneeda Biscuit the only persons who ever tasted fresh, crisp soda crackers were the people in the bakeries.

Imagine their trip from bakery to your table; exposed to air and moisture—kept in grocers' boxes and finally in a paper bag on the shelf in your pantry. Could they be the same as they were the day they were baked?

Now that we have Uneeda Biscuit—we have perfectly baked soda crackers—perfectly kept.

No moisture can reach them—no contaminating influences can affect their flavor—their goodness is imprisoned only to be liberated by you for you when you open the package.

Always in the moisture proof package. Never sold in bulk. 5 cents a package.

Presented to Every Reader of The Times

For years there has been a great demand for a small dictionary of language that would meet the requirements of busy people generally and within the reach of all. THE TIMES is pleased to announce the distribution of Webster's New Illustrated Dictionary, revised and brought up to date in accordance with the most recent eminent English and American authorities on spelling, definition and pronunciation. It contains all the words of the English language that are not peculiarly appropriate to a dictionary of technical terms.

Webster's New Illustrated Dictionary

With the Late
United States
Census

1200 Pages

**DAILY EASTERN CITRUS
MARKET QUOTATIONS.**

This is a vertical, high-contrast black and white photograph of a book's binding. The left side of the image shows the dark, textured spine and the edges of the pages, which appear as a series of parallel lines. The right side of the image is a solid black background, creating a sharp contrast with the lighter, textured book material. The overall composition is minimalist and focuses on the texture and form of the book's binding.
